

APAN48 – Russia session

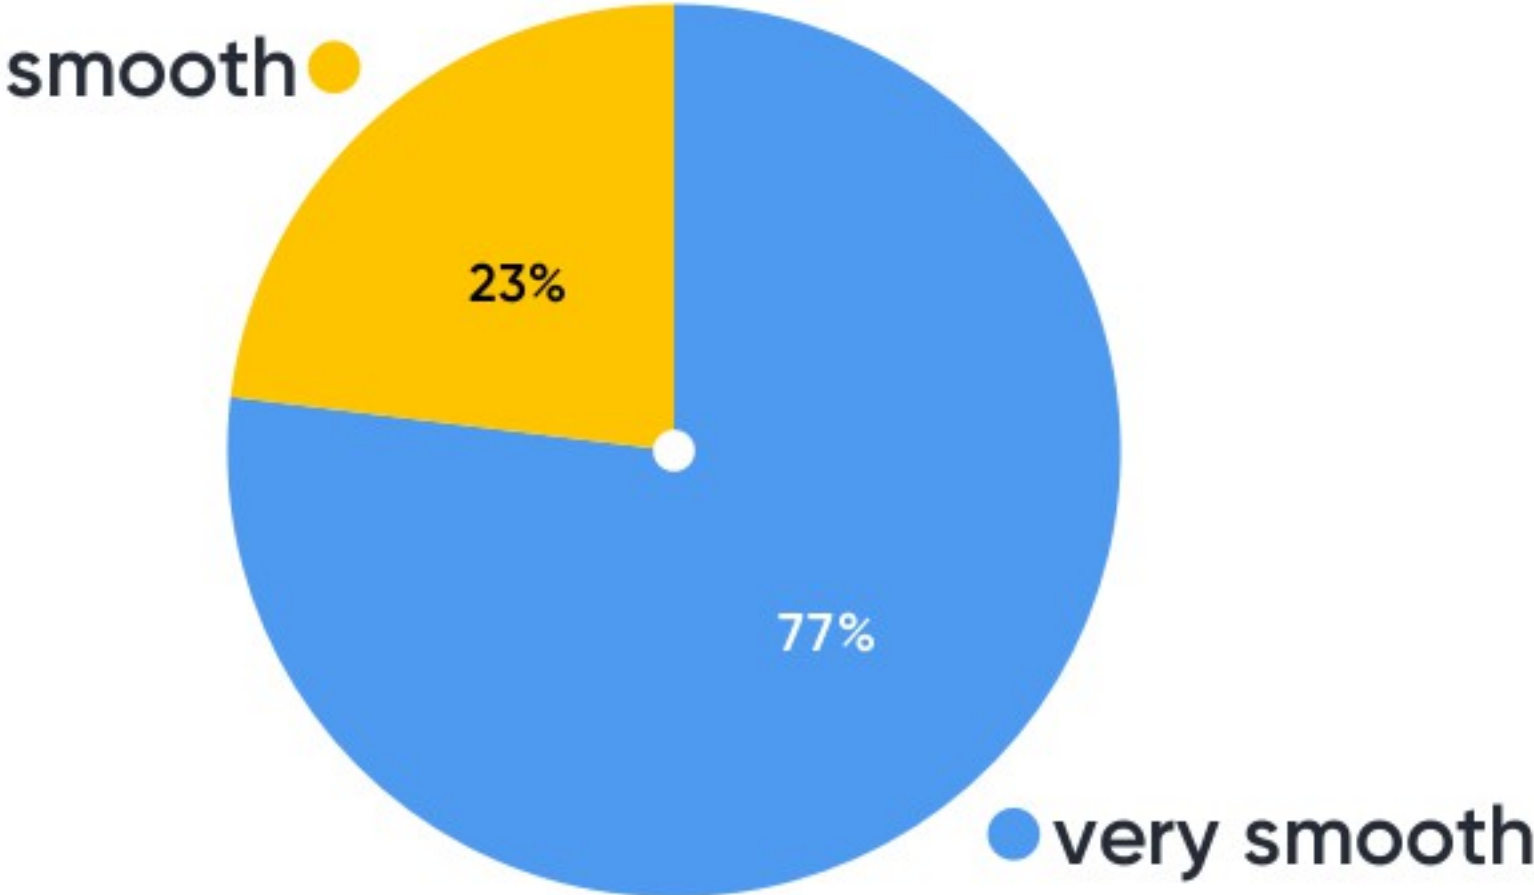

July 22, 2019

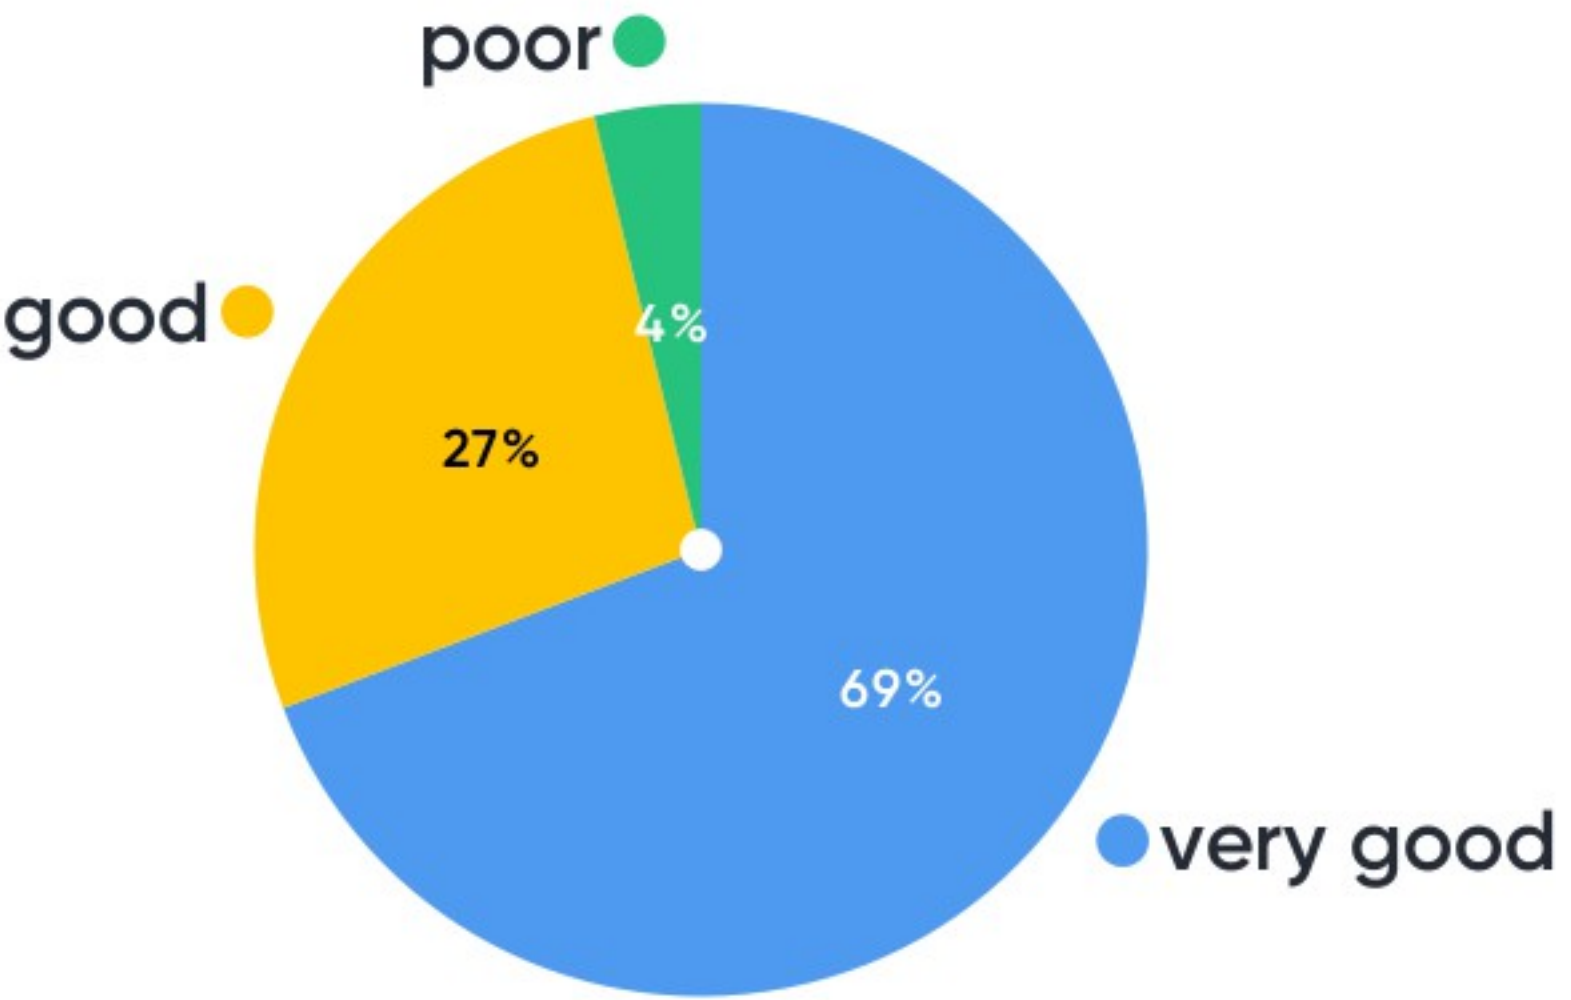

1. How was the image sharpness?

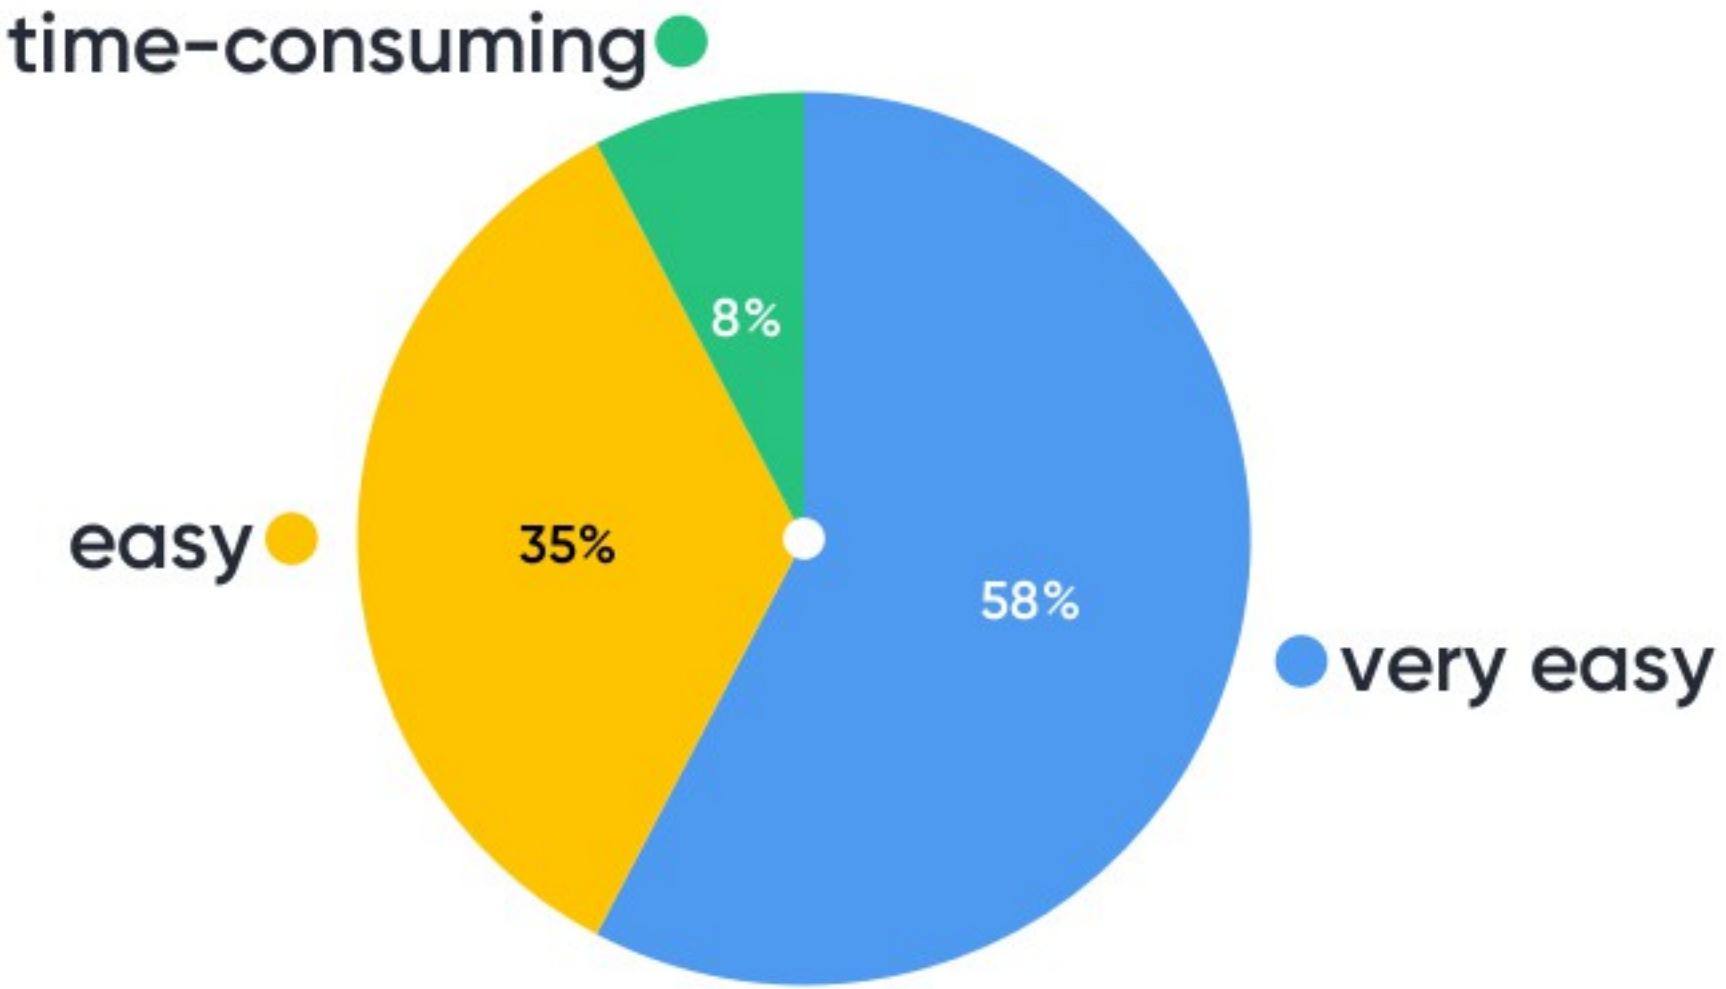

2. How was the image movement?

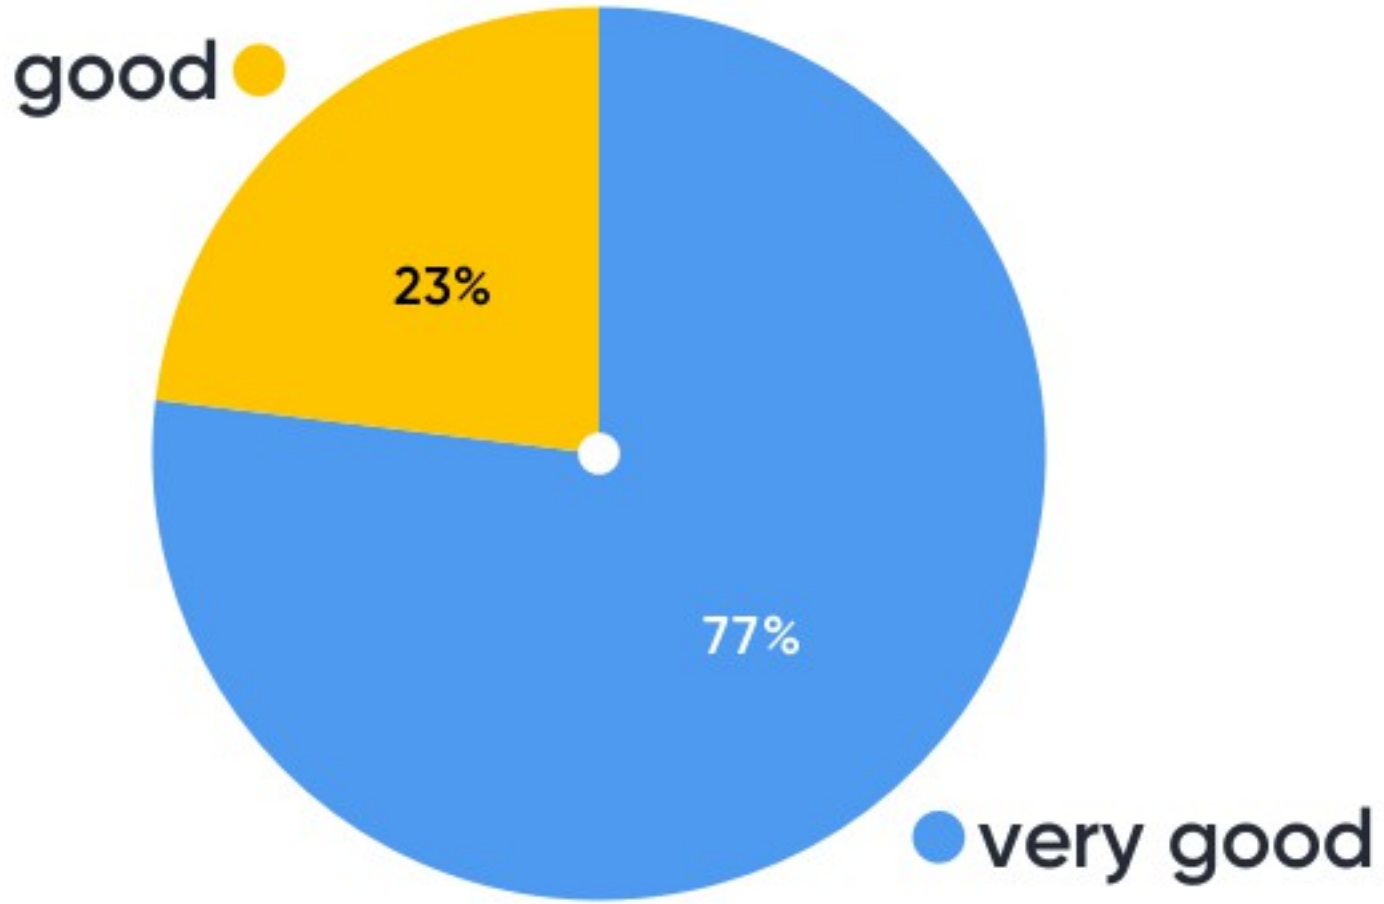

3 . How was the quality of sound?

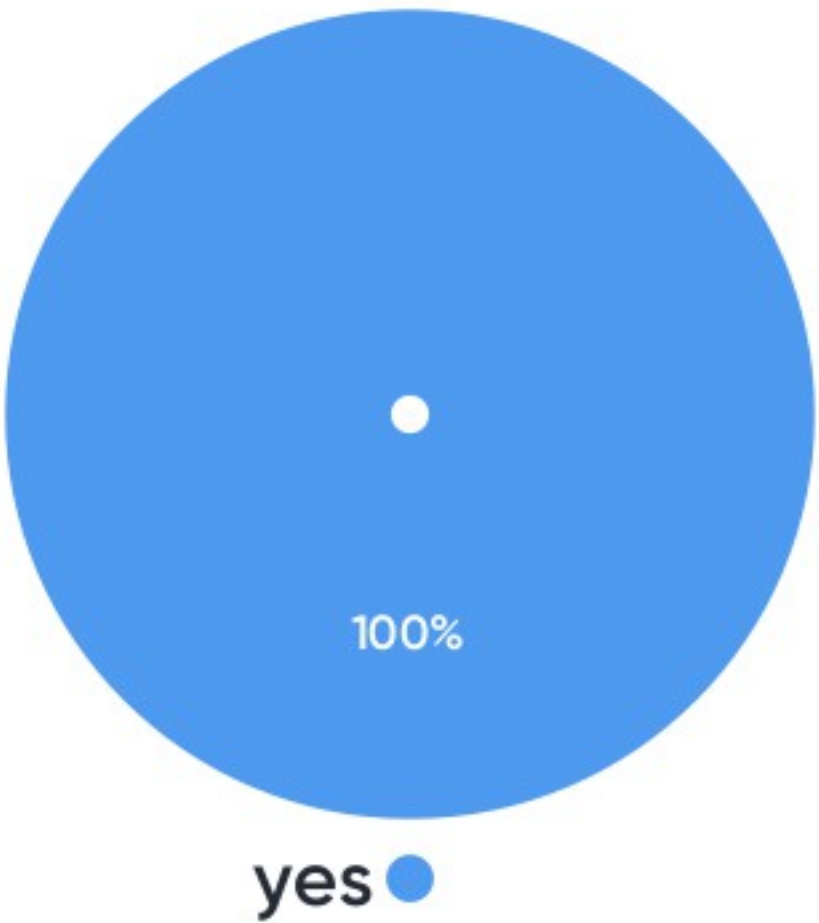

4 . How was the preparations?

5 . How was the program?

6. Will you attend another teleconference session next time?

7. If you found any problems in teleconference, please write any comments you may have.

Very good.

no problem.. almost perfect transmission

There were some institutions that did not mute their microphones and disturbed the teleconference. This is a shame since it was a good teleconference. Engineers needs support the throughout the teleconference not only at the begining.

Something was wrong with microphone in Kyushu University. Sound was worse than in previous teleconference.

No problem

ok

venue equipment low quality problem

NA

everything going smooth technically..

7. If you found any problems in teleconference, please write any comments you may have.

No problem

There were no problems

No problem

8 . Which is your station?
