

APAN48 -Ophthalmology Session

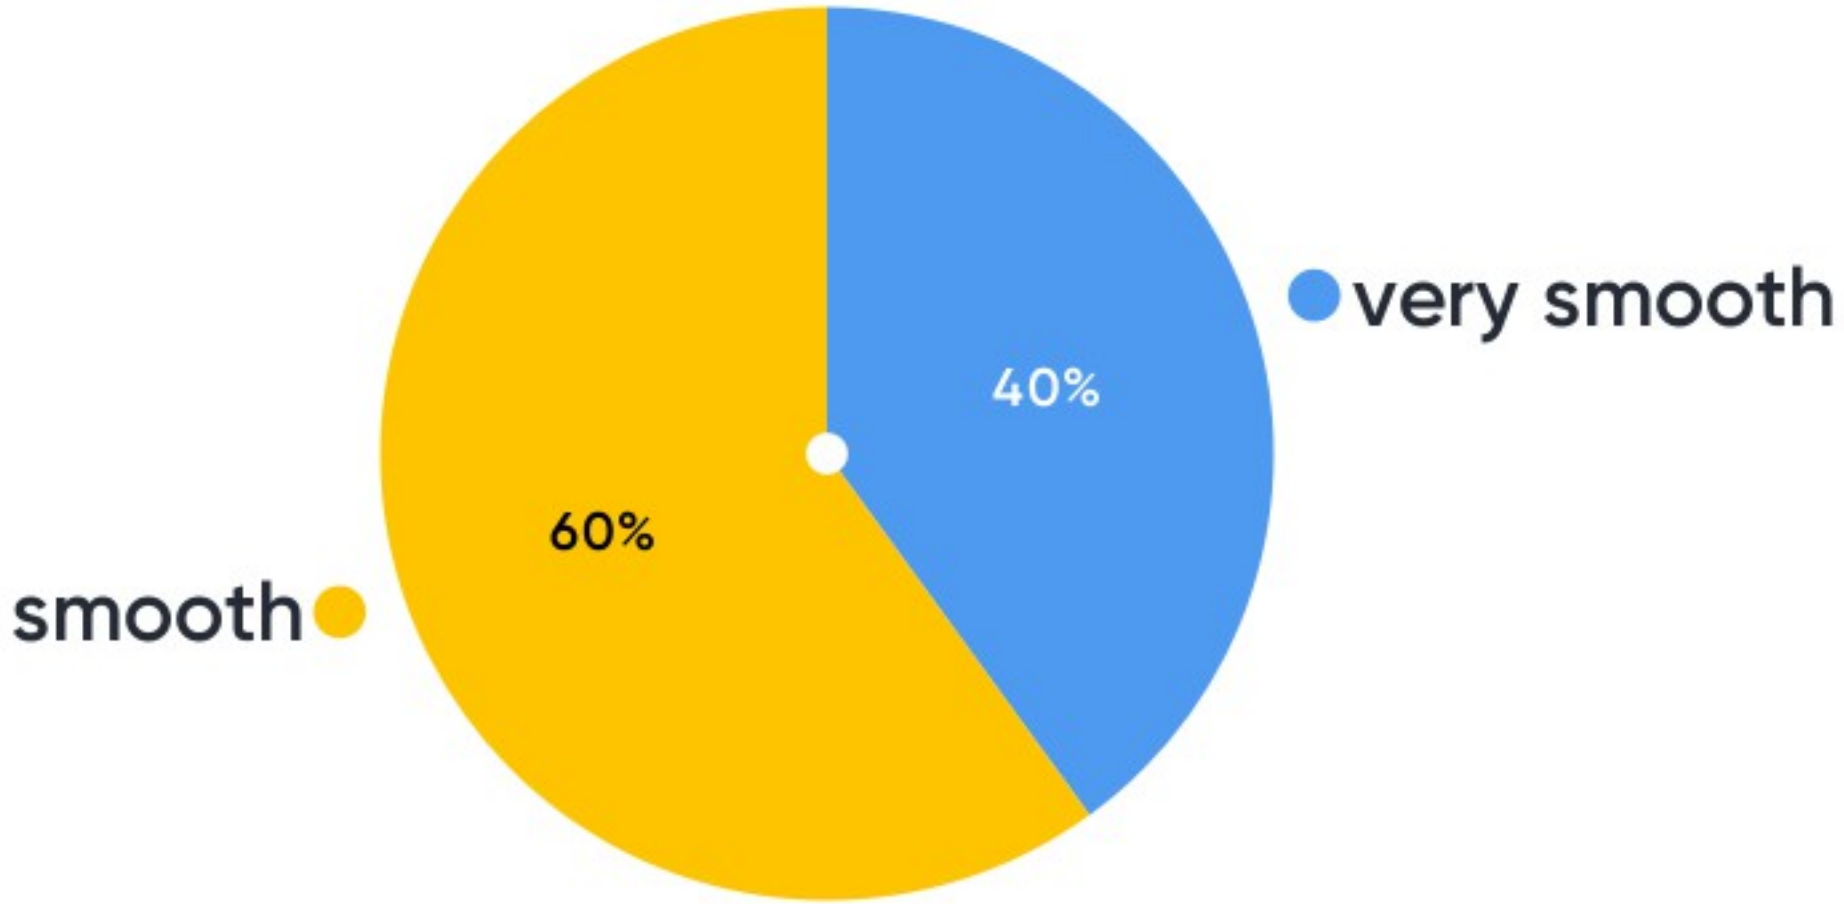

July 25, 2019

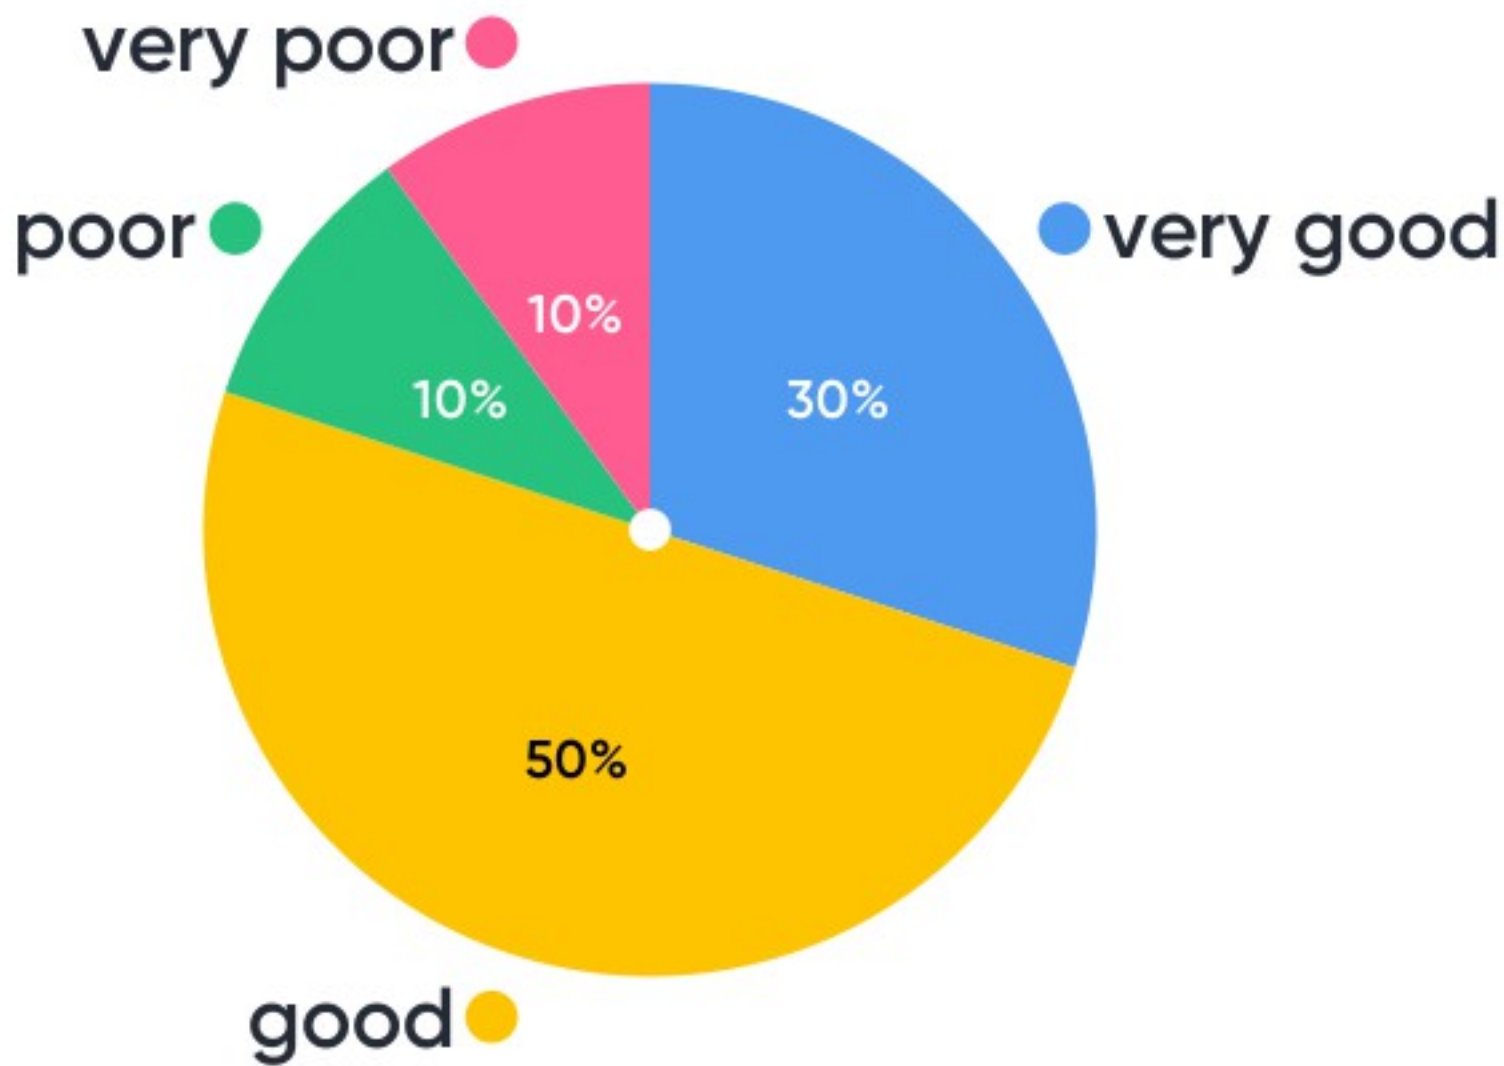

1. How was the image sharpness?

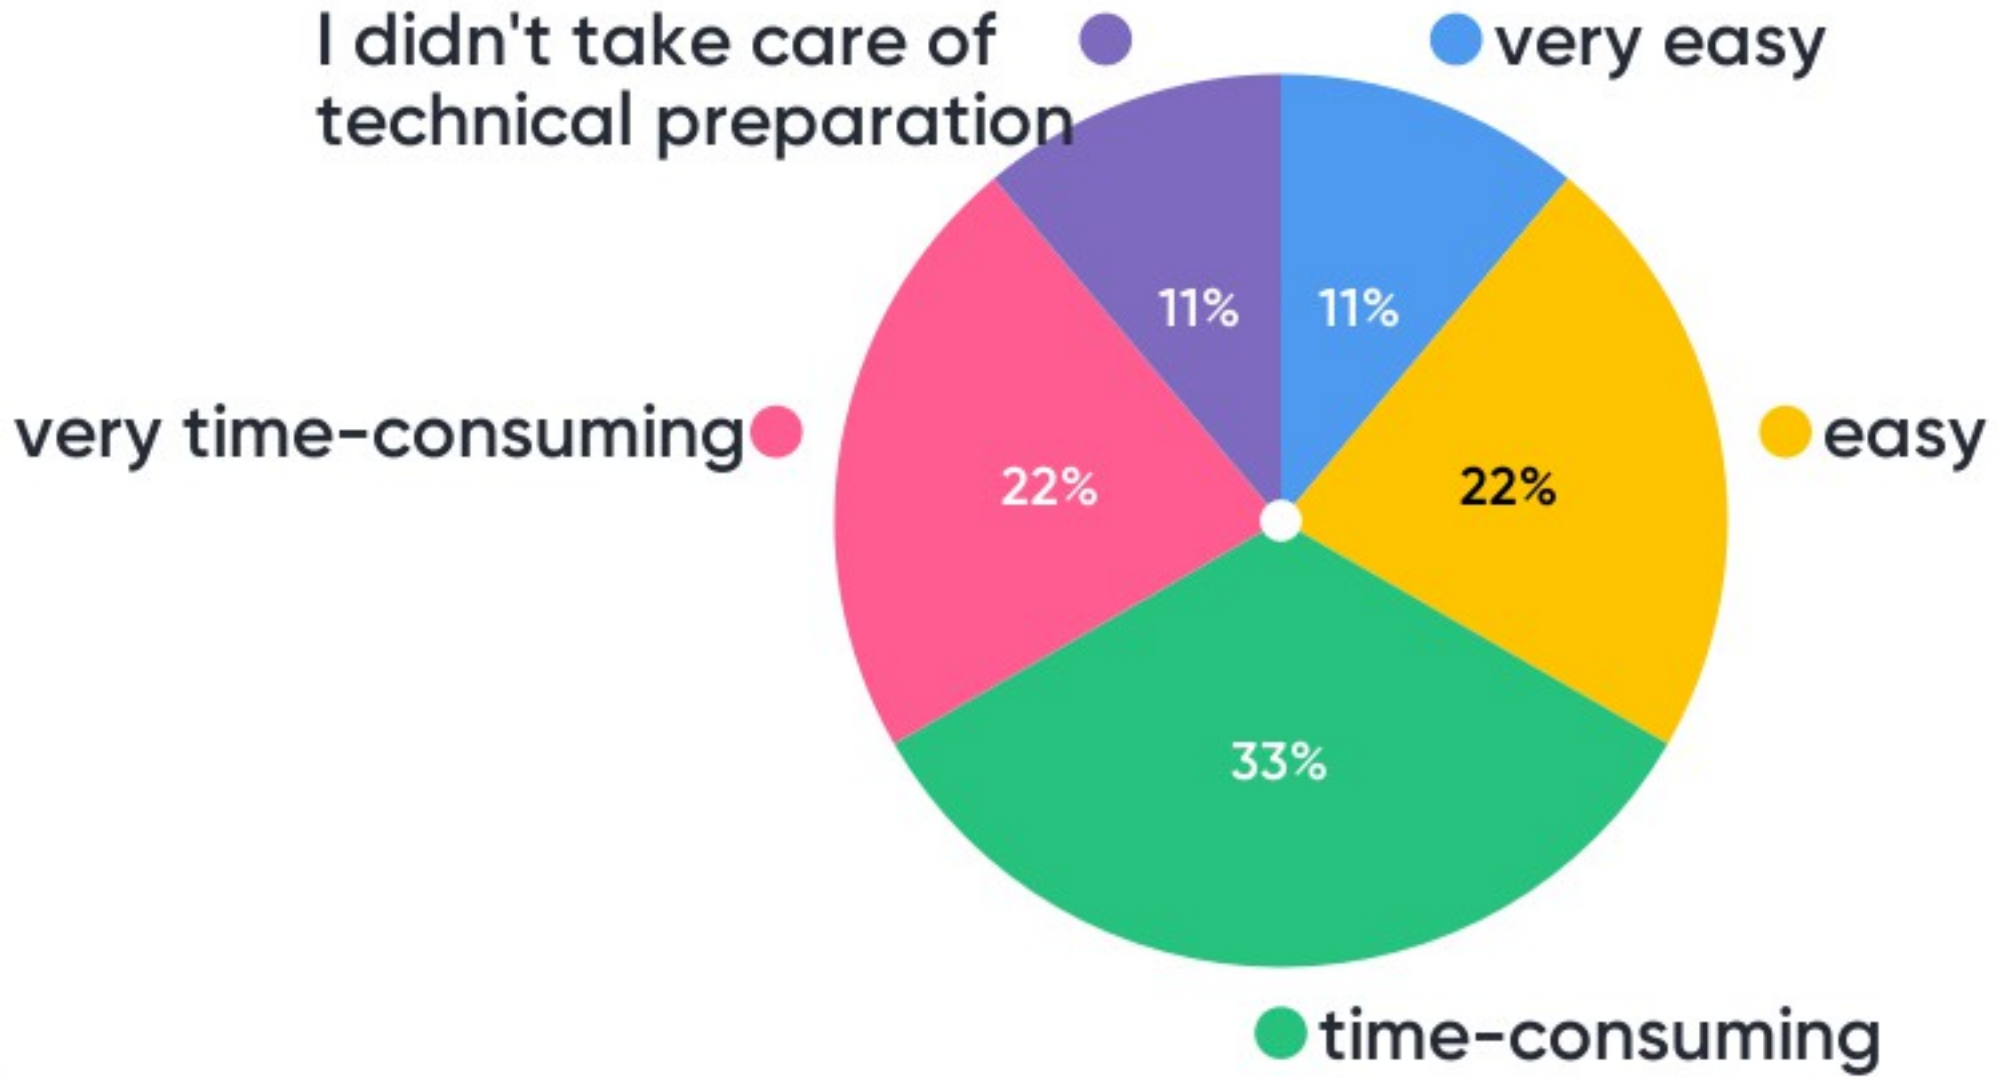

2. How was the image movement?

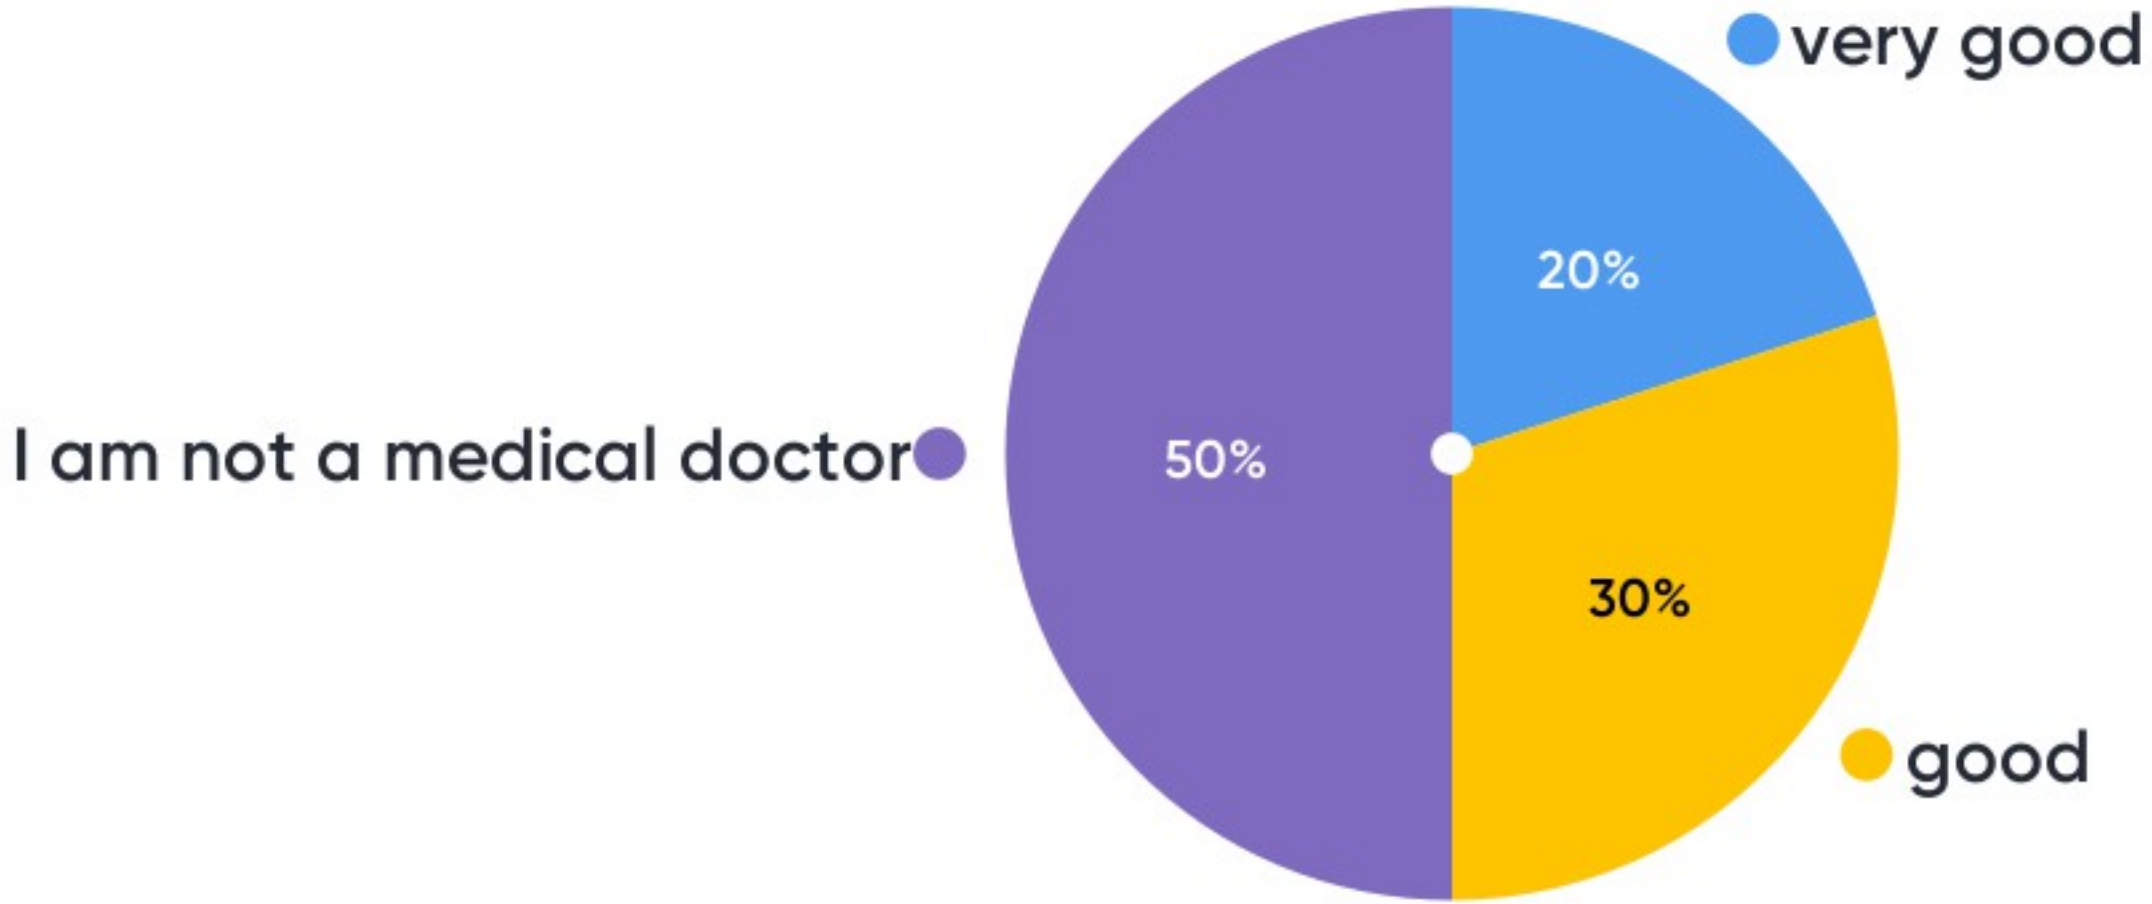

3 . How was the quality of sound?

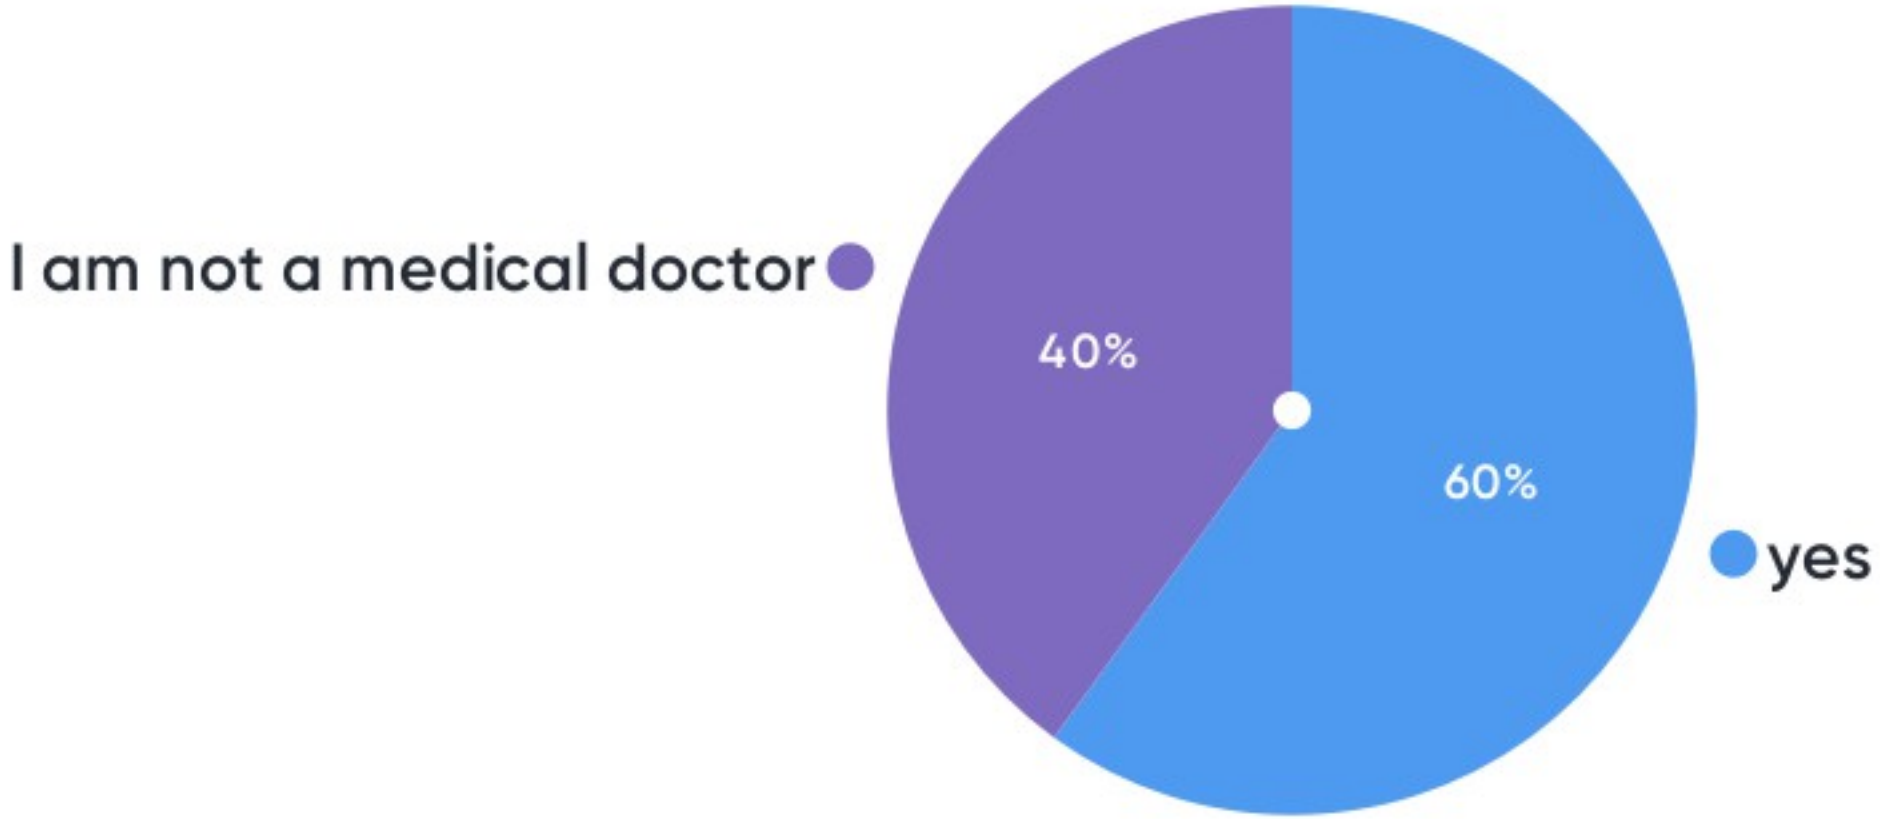

4 . How was the preparations?

5. How was the program?

6. Will you attend another teleconference session next time?

7. If you found any problems in teleconference, please write any comments you may have.

It is pity that the remote sites had many audio problems. One institution also did not prep enough for content sharing. It would of have been a great program since many institutions from different countries joined.

more time for discussion and comment improve audio way : no echo, no delay

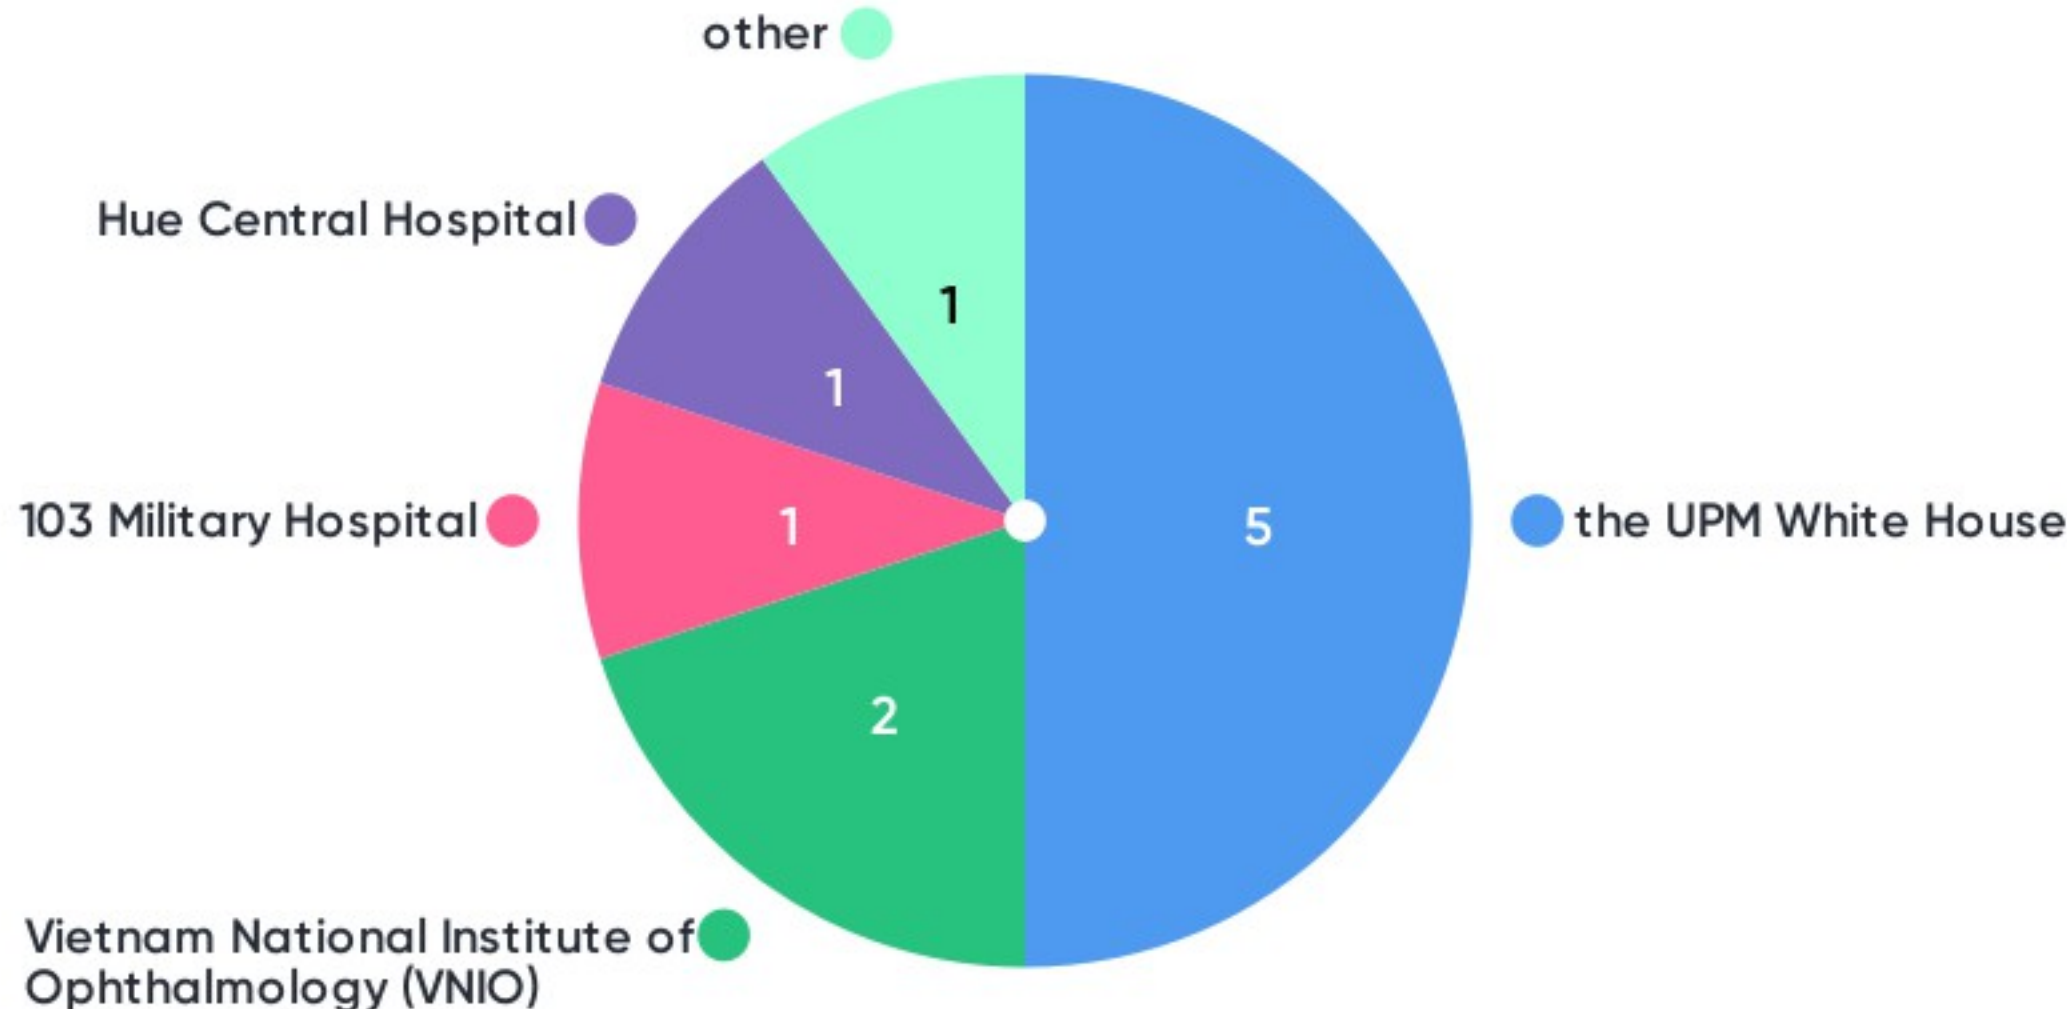

sometimes images became blur and focused by themselves, Sometimes sound couldn't play right (echo and so on)

SHOULD HAVE GOOD PREPARATION FOR TELE ENGINEER

More solid sound

8 . Which is your station?

9 . Which is your occupation?
