How you rate the quality of this program?

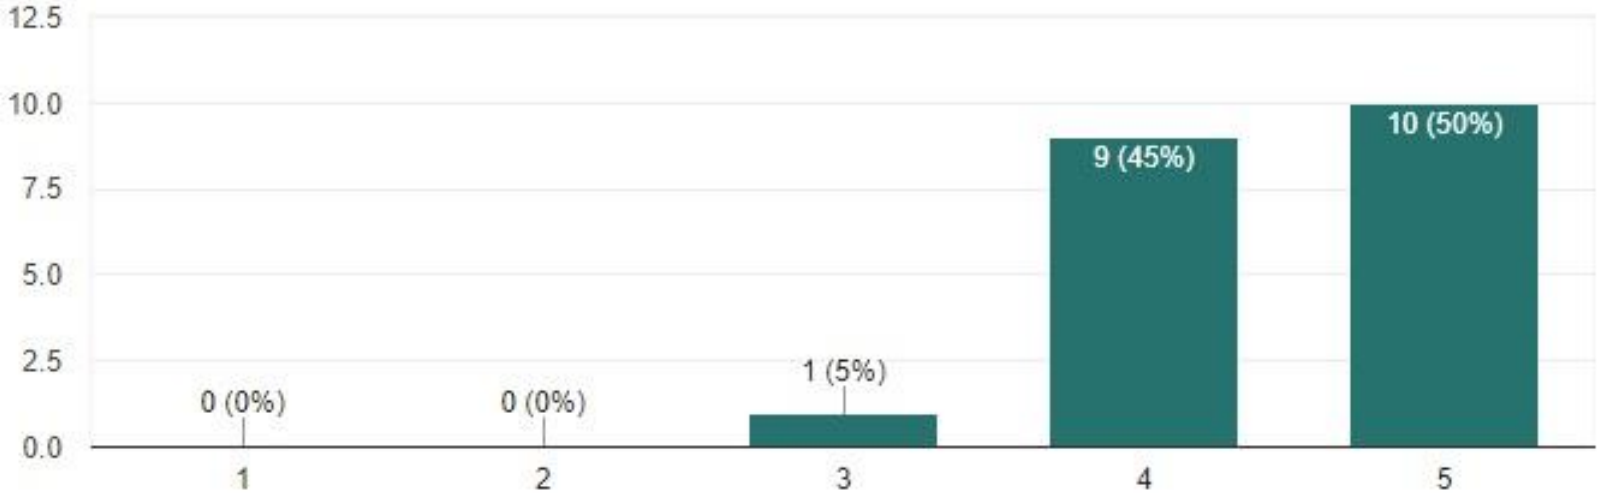

20 responses

How likely is it that you think this program could enhance INNOVATION VALUE in your institution?

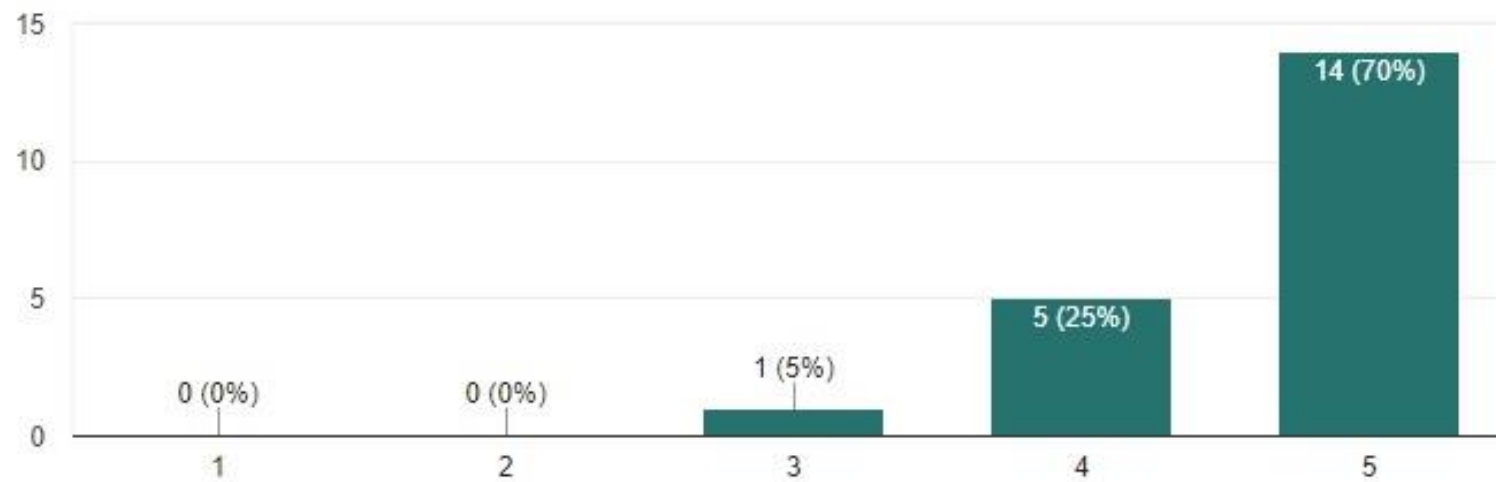

20 responses

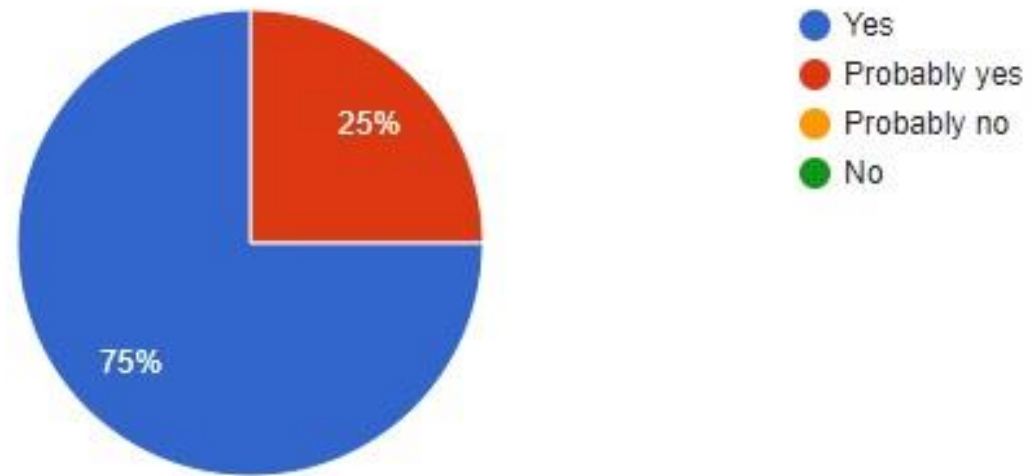

How likely is it that you would recommend Dental Telemedicine to a friend or colleague?

20 responses

Will you attend another dental teleconference session next time?

20 responses

If you found any problems in teleconference, please write any comments you may have.

7 responses

Semua berjalan dengan baik

Some institution had difficulty with the sound, so it was a bit hard to hear.

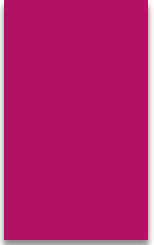

none

The internet condition was very good and we could share many interesting topics. If we receive detail information (at least titles) from all speakers before several weeks, it would be easier for students in our school to attend the meeting, I think.

The topic of each session theme should be more specific, so that the speaker could prepare the slides accordingly

Almost none

No problem

If you suggest any particular topic for the next dental teleconference session, please let me know

5 responses

Updates on Periodontology treatment

autoimmune disease

oral cancer

Advances implant procedures

Early caries detection

Thank You
