

APAN45 - Hepato-Biliary-Pancreas(HPB)

session

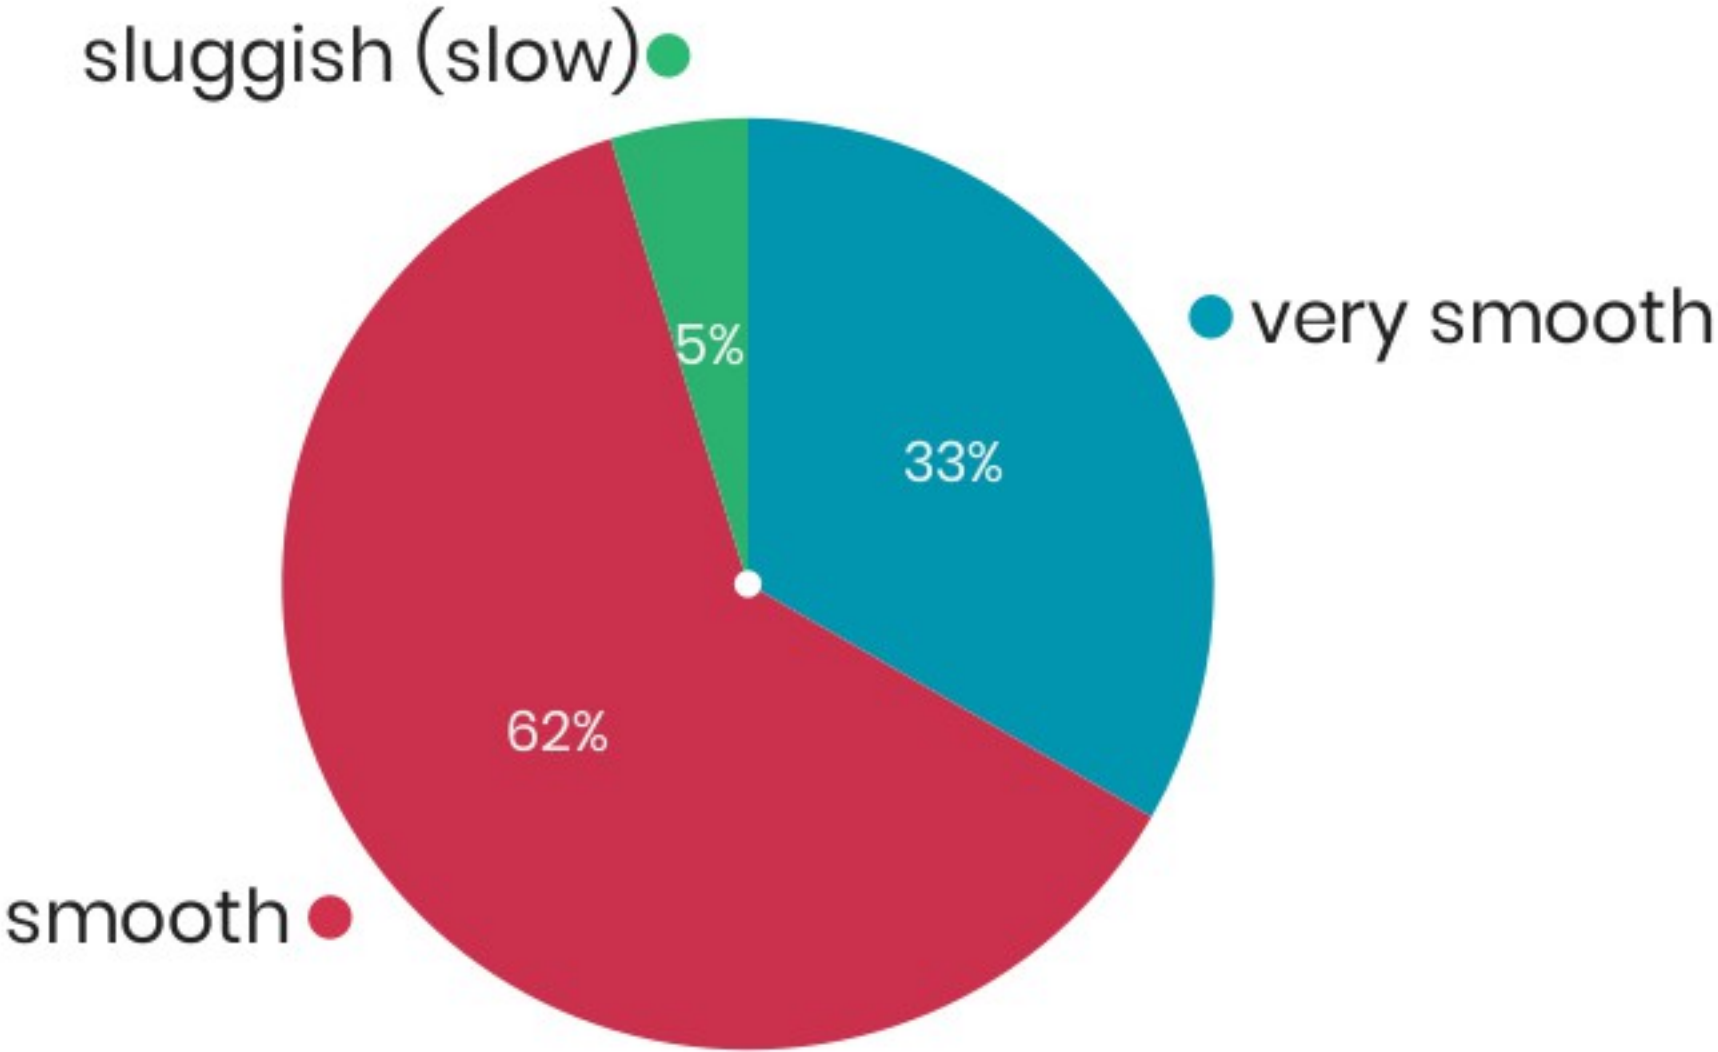

March 28, 2018

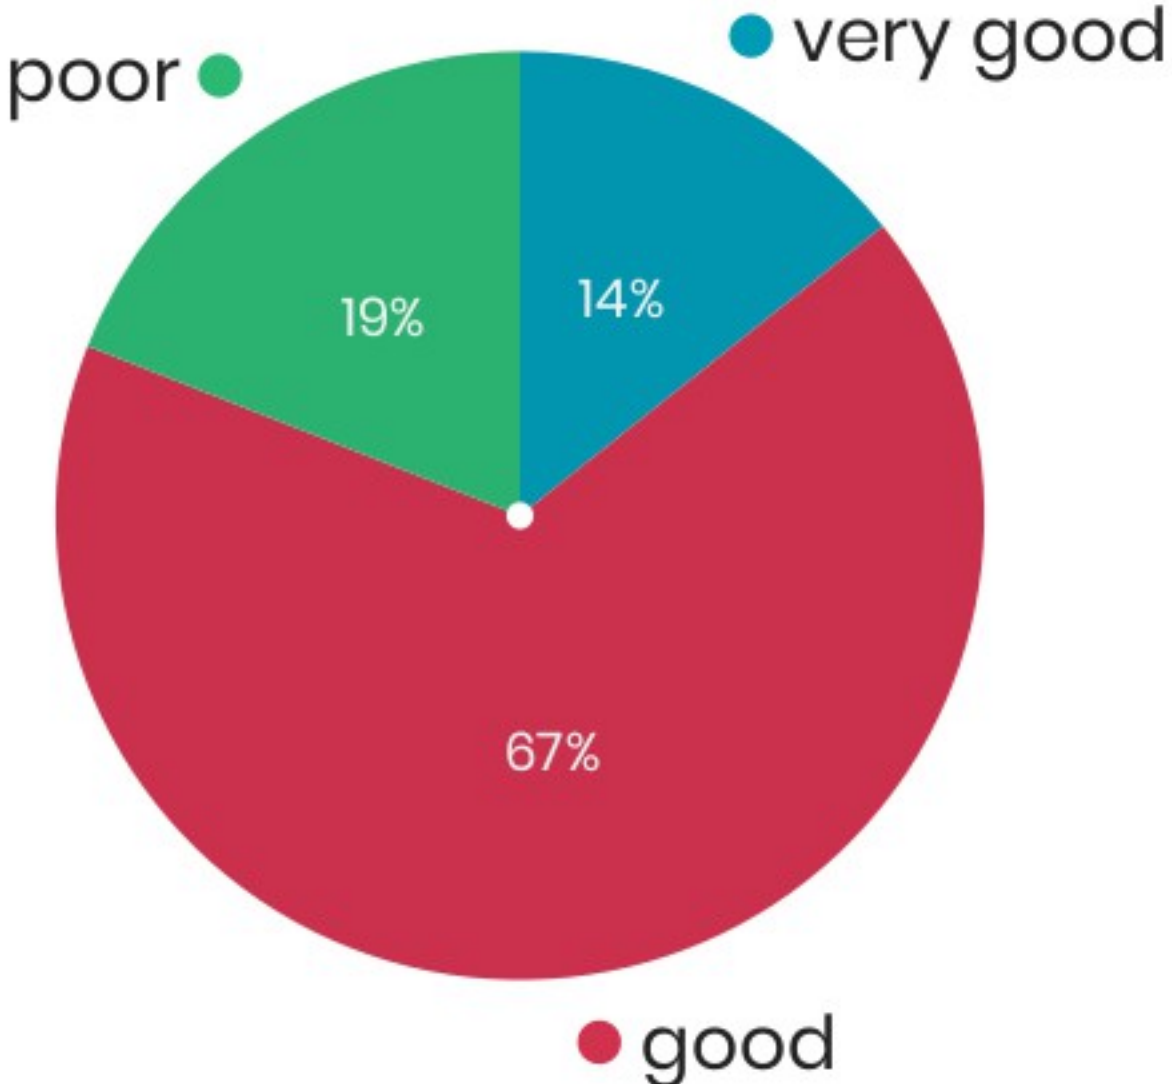

1. How was the image sharpness?

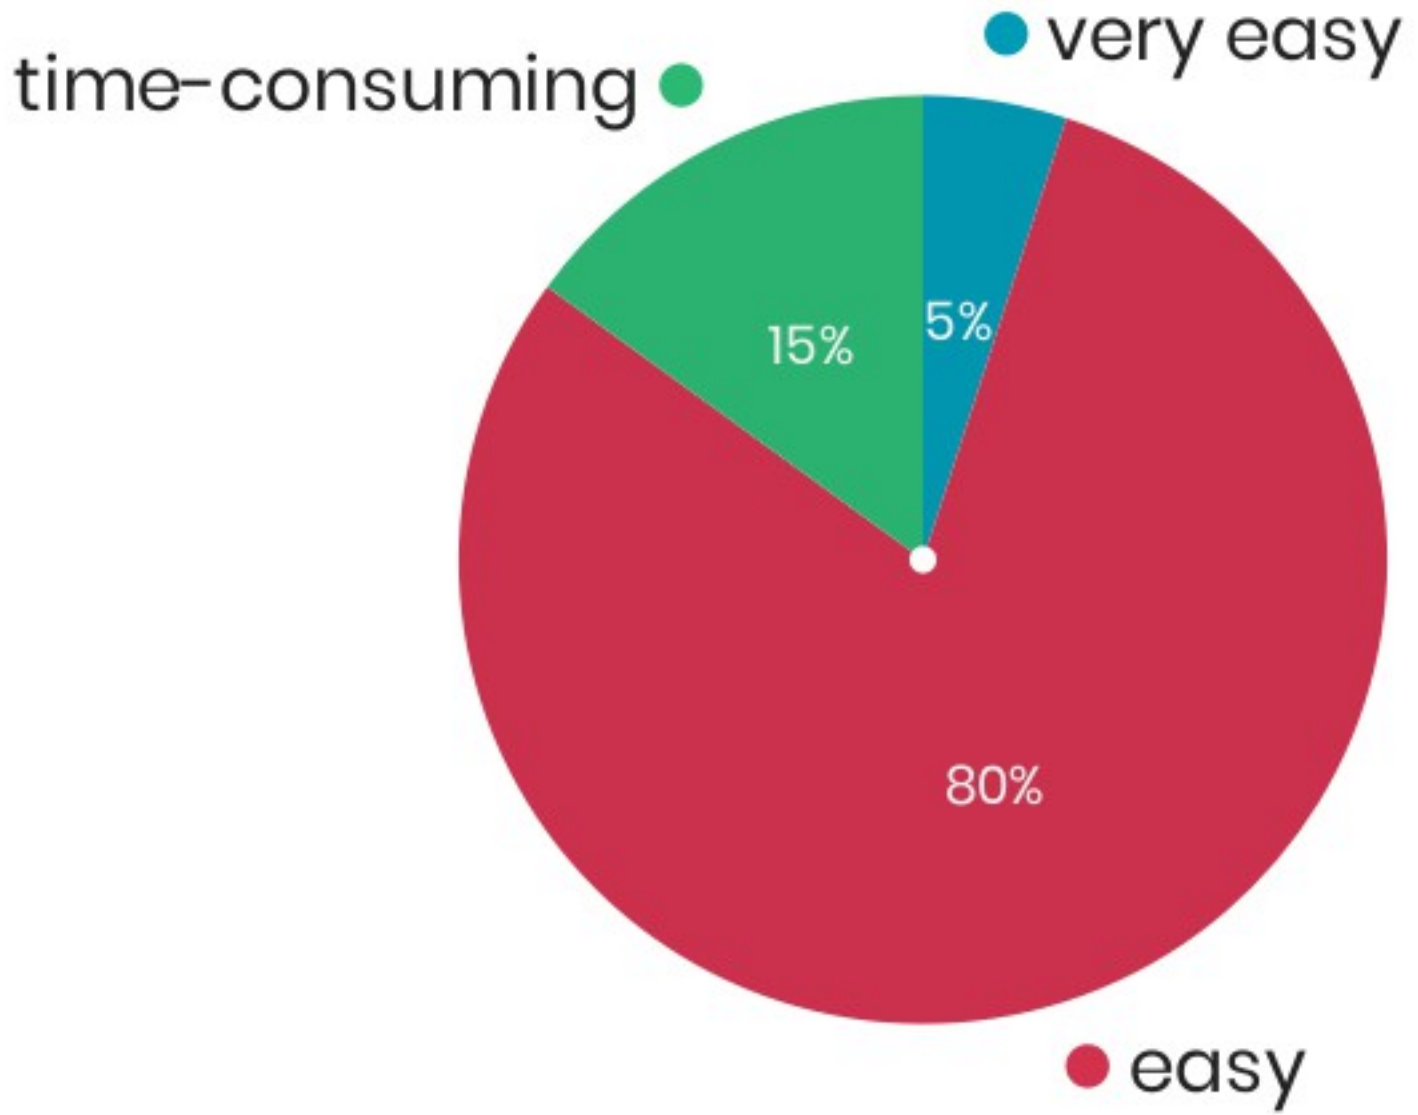

2. How was the image movement?

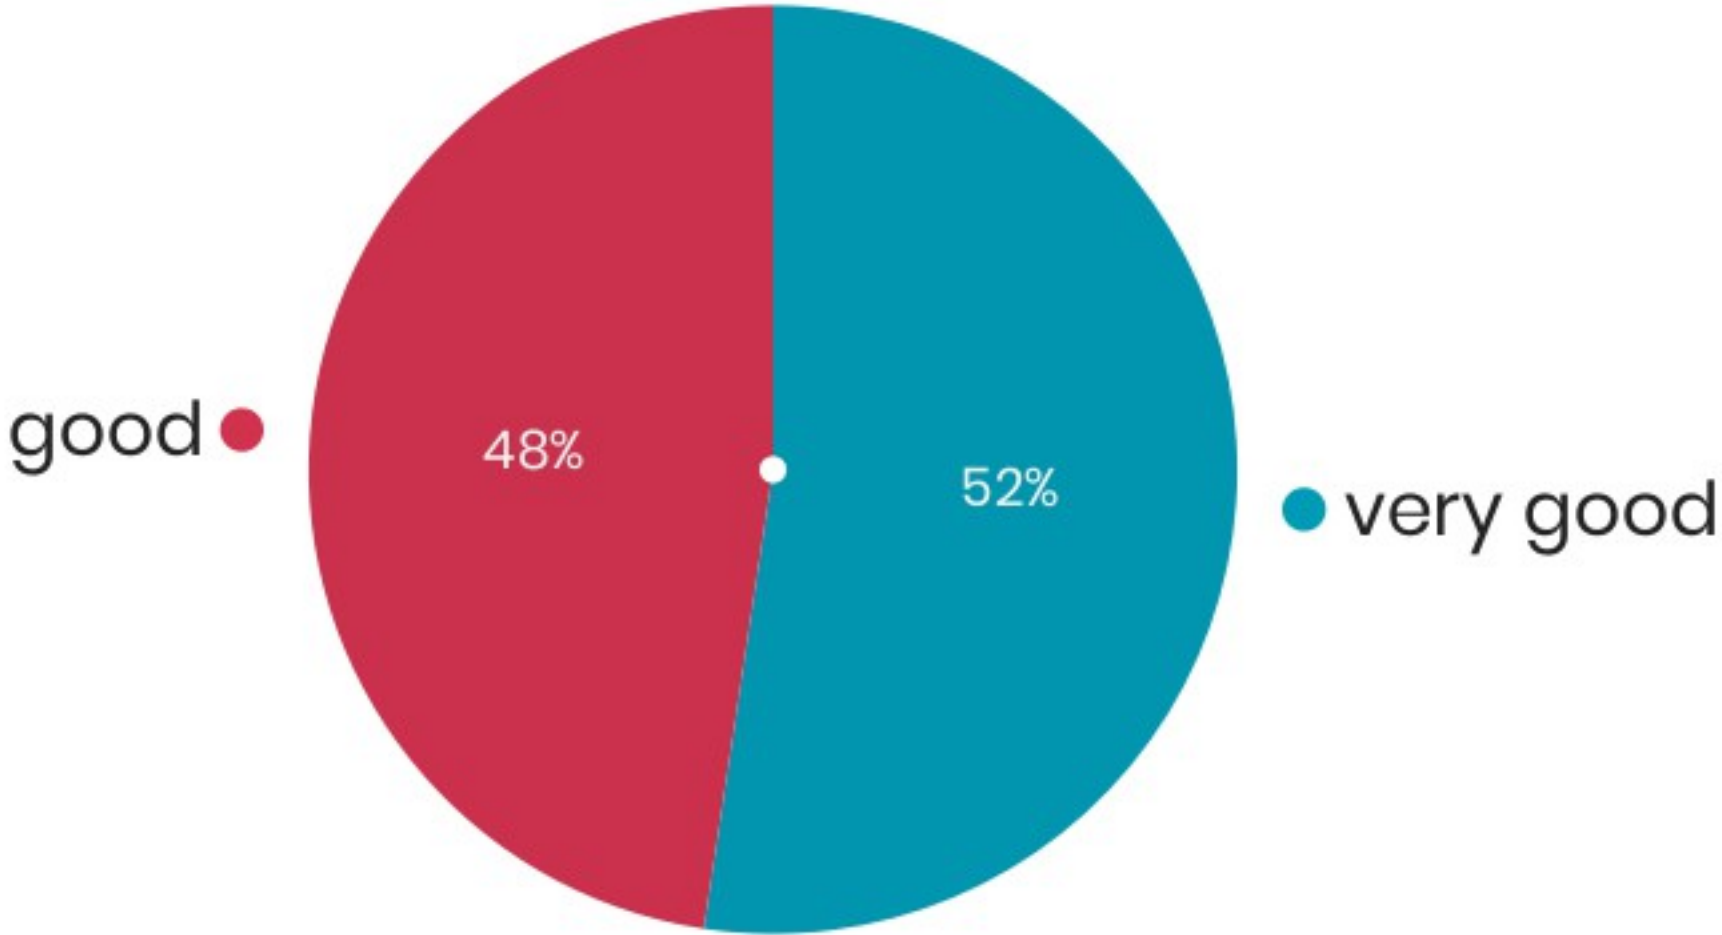

3. How was the quality of sound?

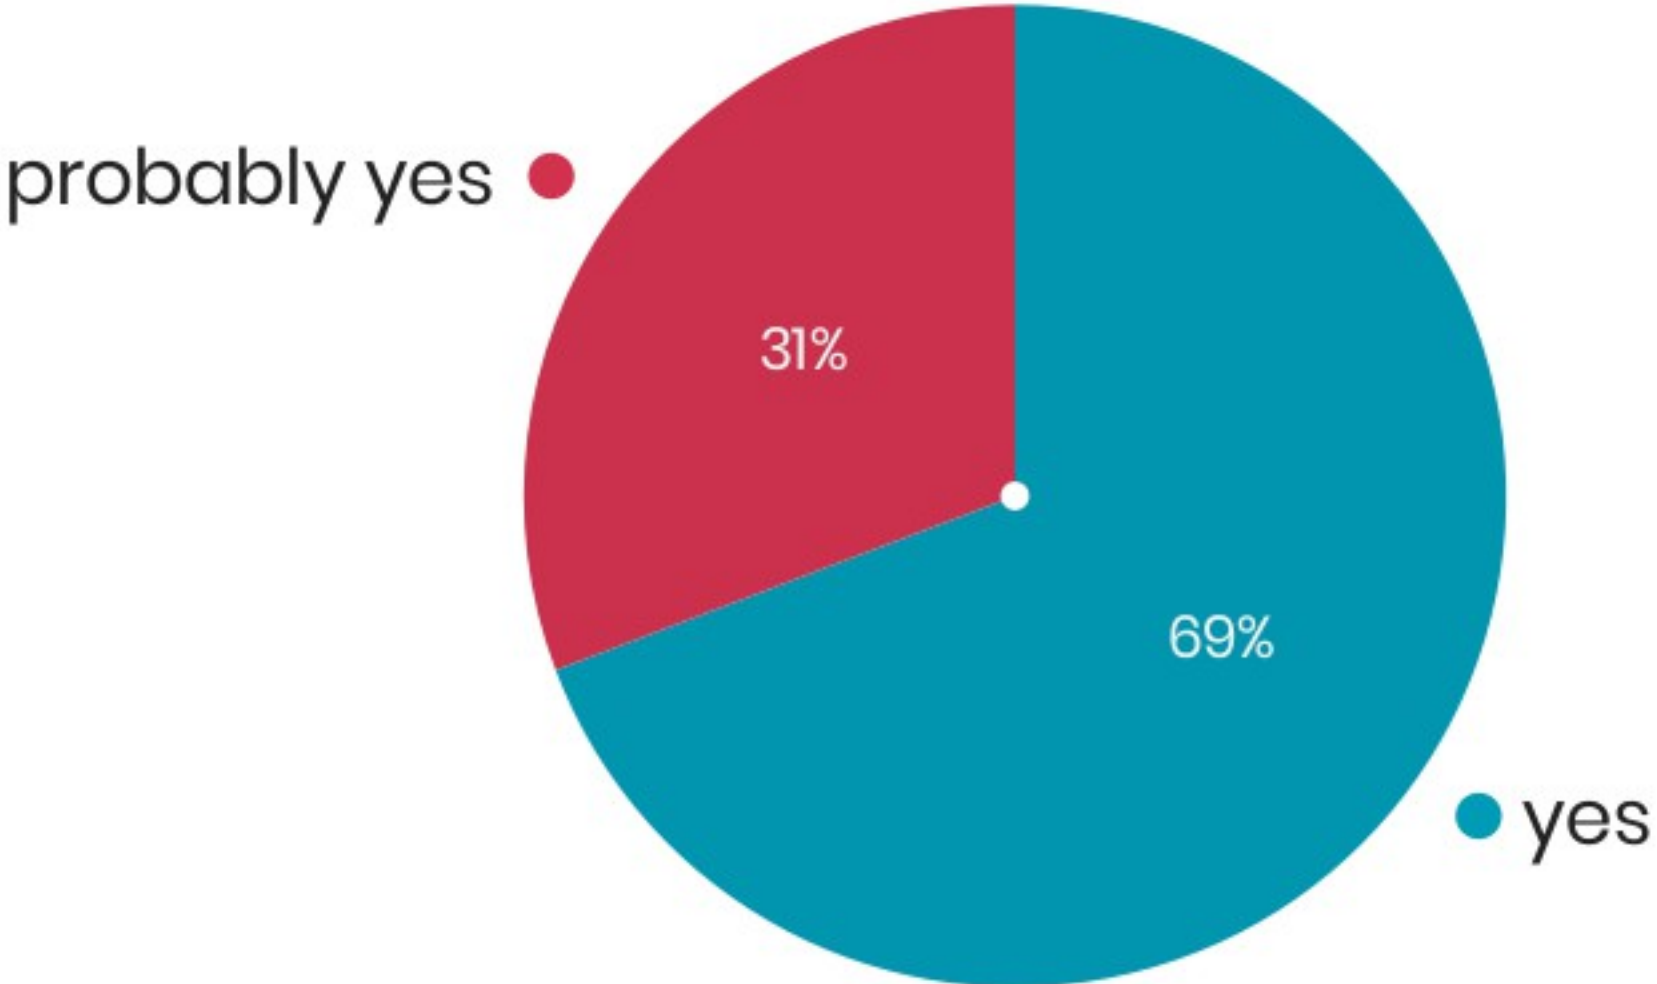

4. How was the preparations?

5. How was the program?

6. Will you attend another teleconference session next time?

7. If you found any problems in teleconference, please write any comments you may have.

sound from remote site there is echo problem and from venue sound is small and video quality from remote site not so good

some center audio quality is not good and hardly to be understand. problem could be wrong vidyo sound setting or bad network problem

Audio from some sites was not good/clear.

During the 2nd presentation from the Tohoku University, echo observed

not at all

none

Nice program

There were many interesting presentation. Sound quality was a problem.

8. Which is your station?
