

# APAN45 – Rural Healthcare Session

March 27, 2018

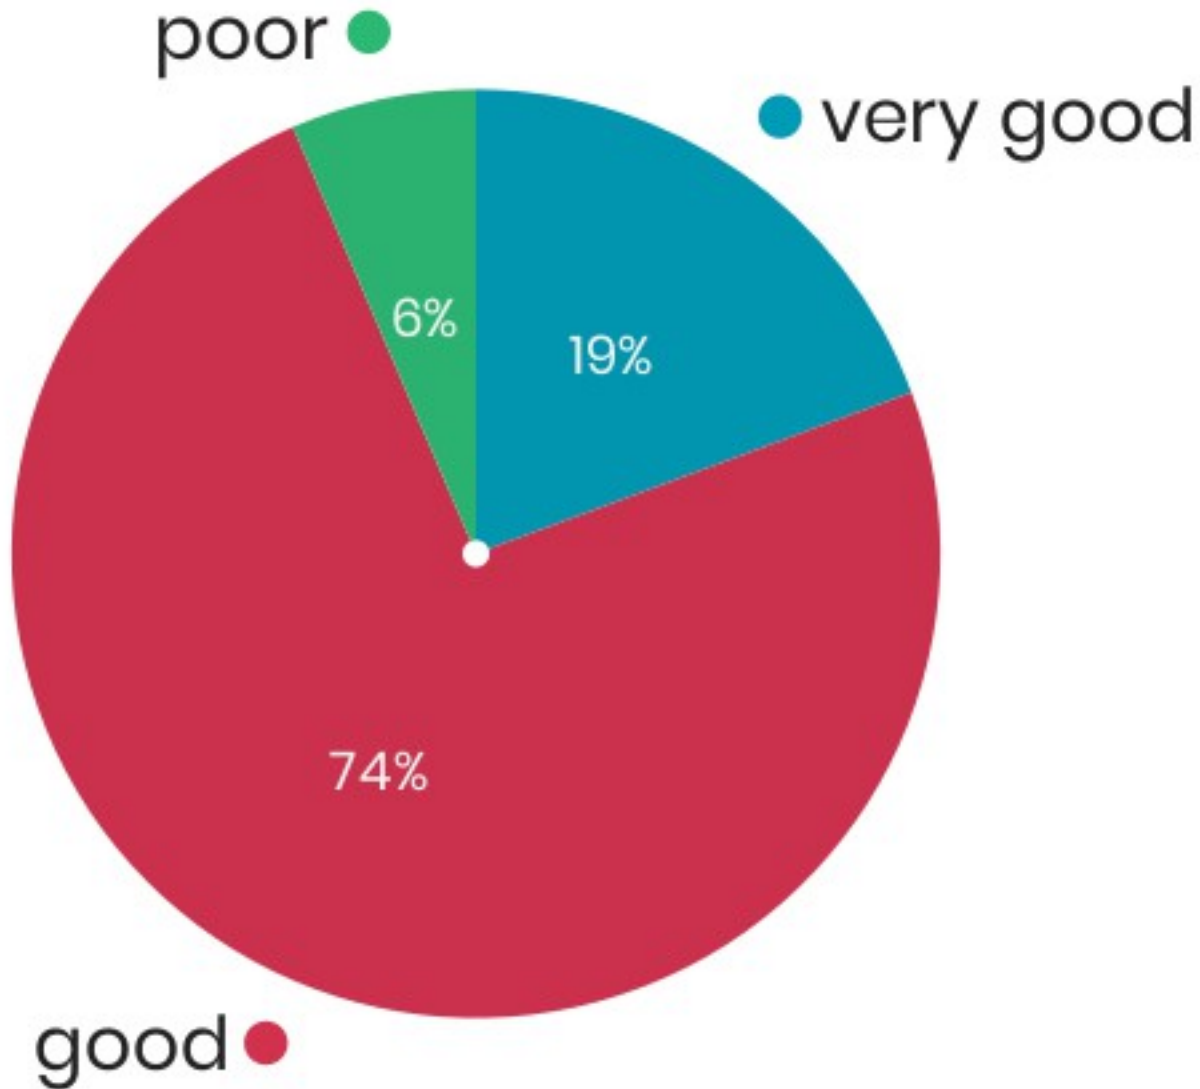

# 1. How was the image sharpness?

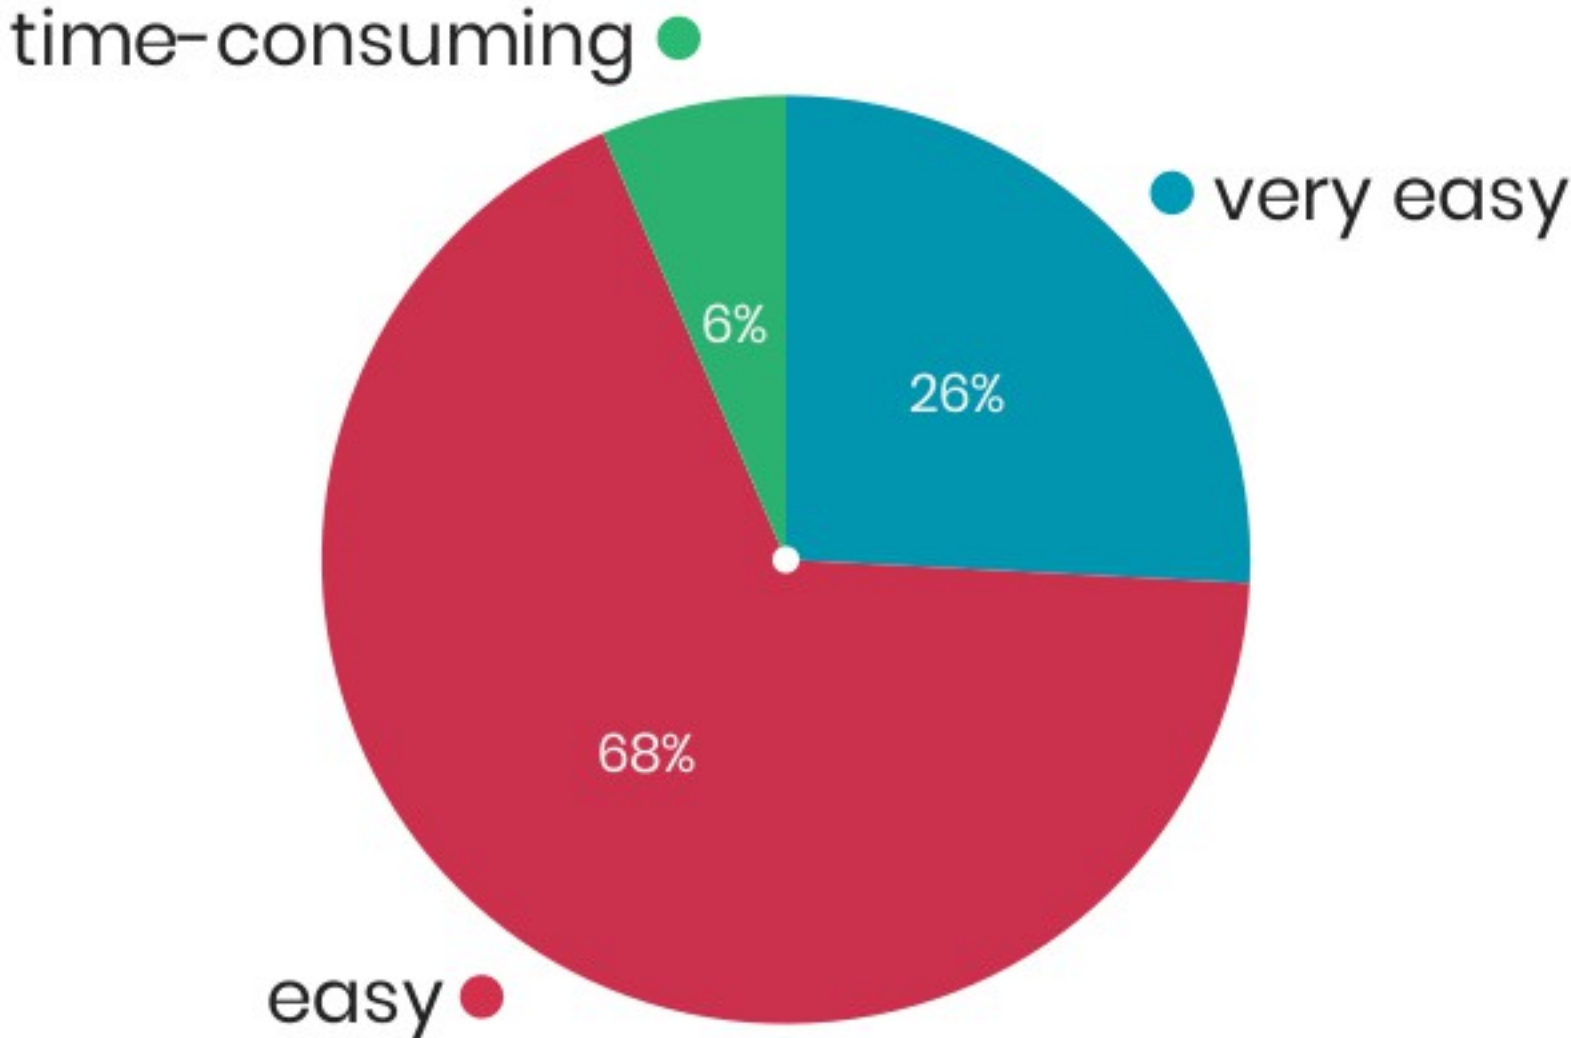

# 2. How was the image movement?

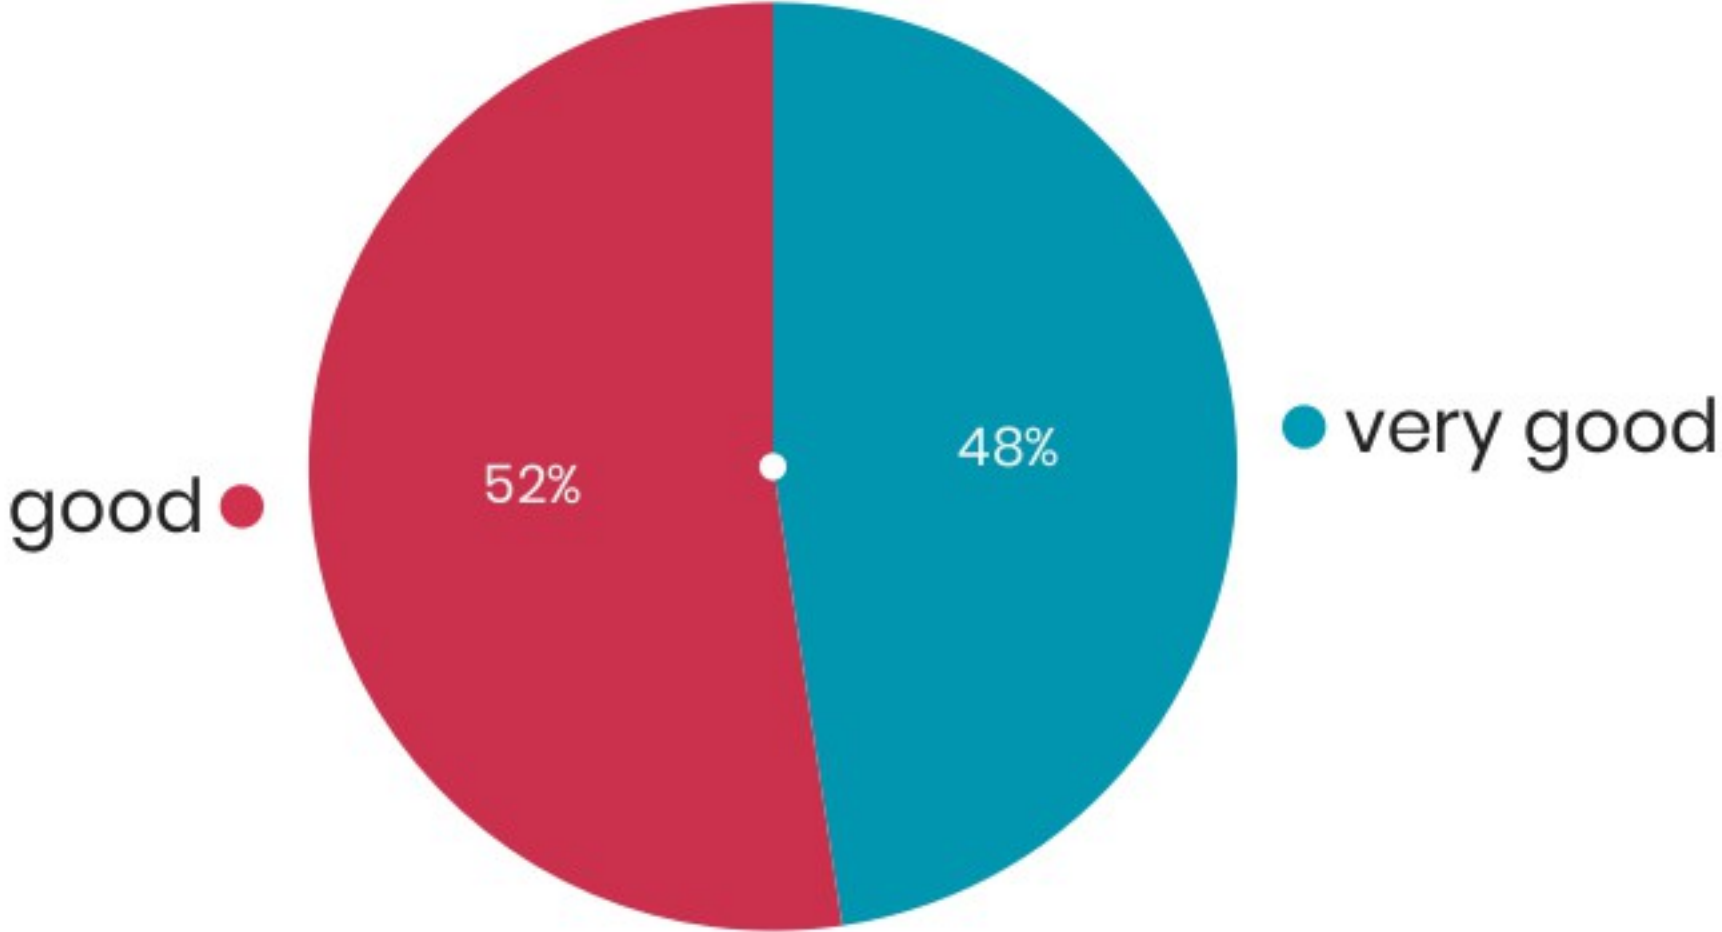

# 3. How was the quality of sound?

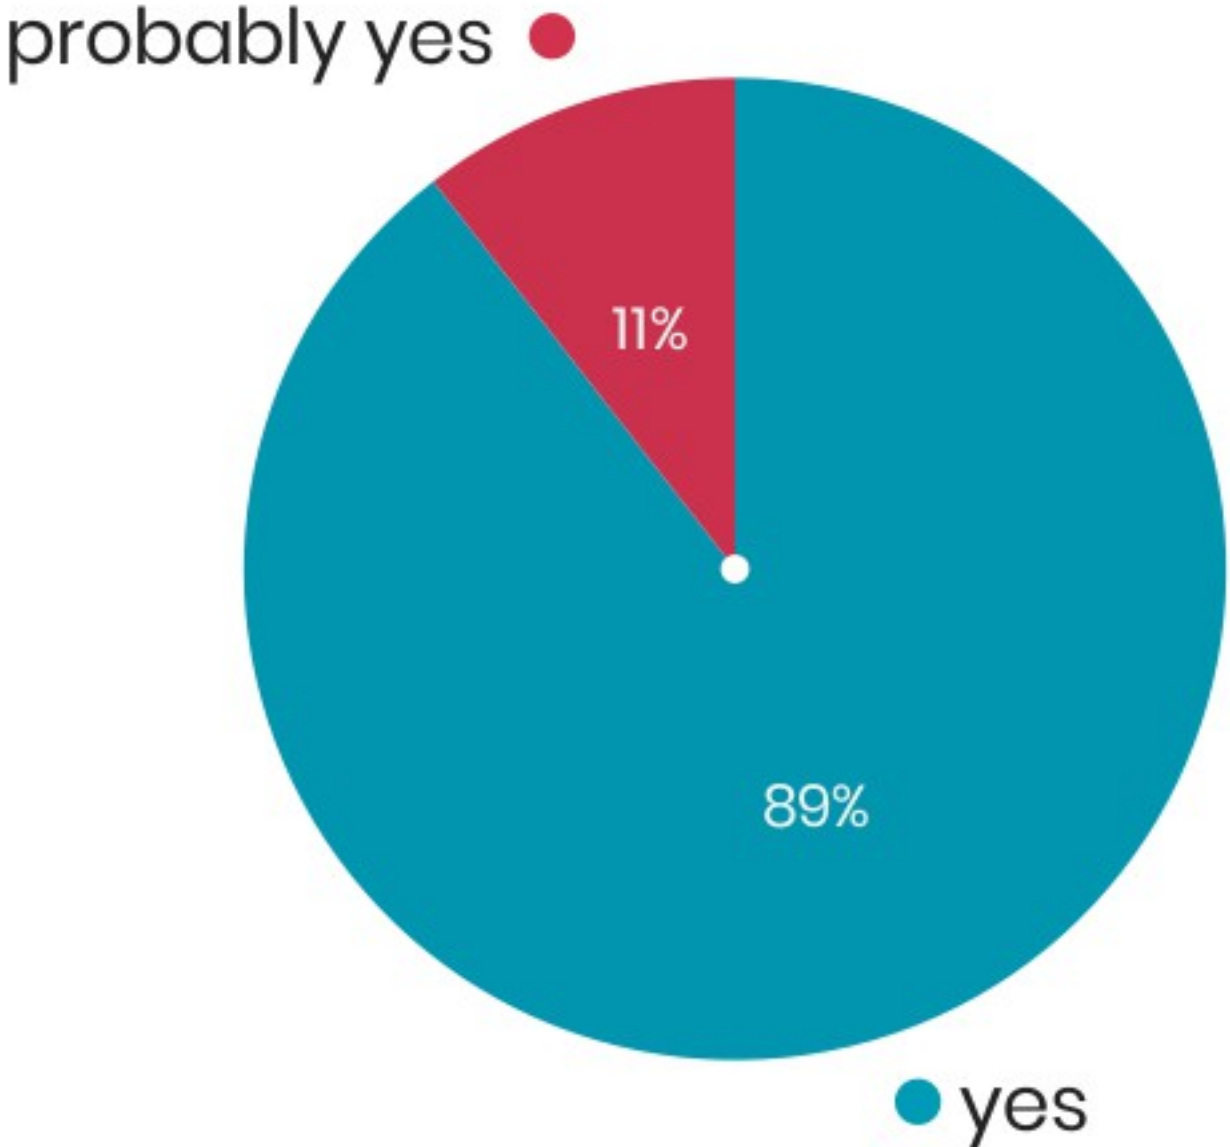

# 4. How was the preparations?

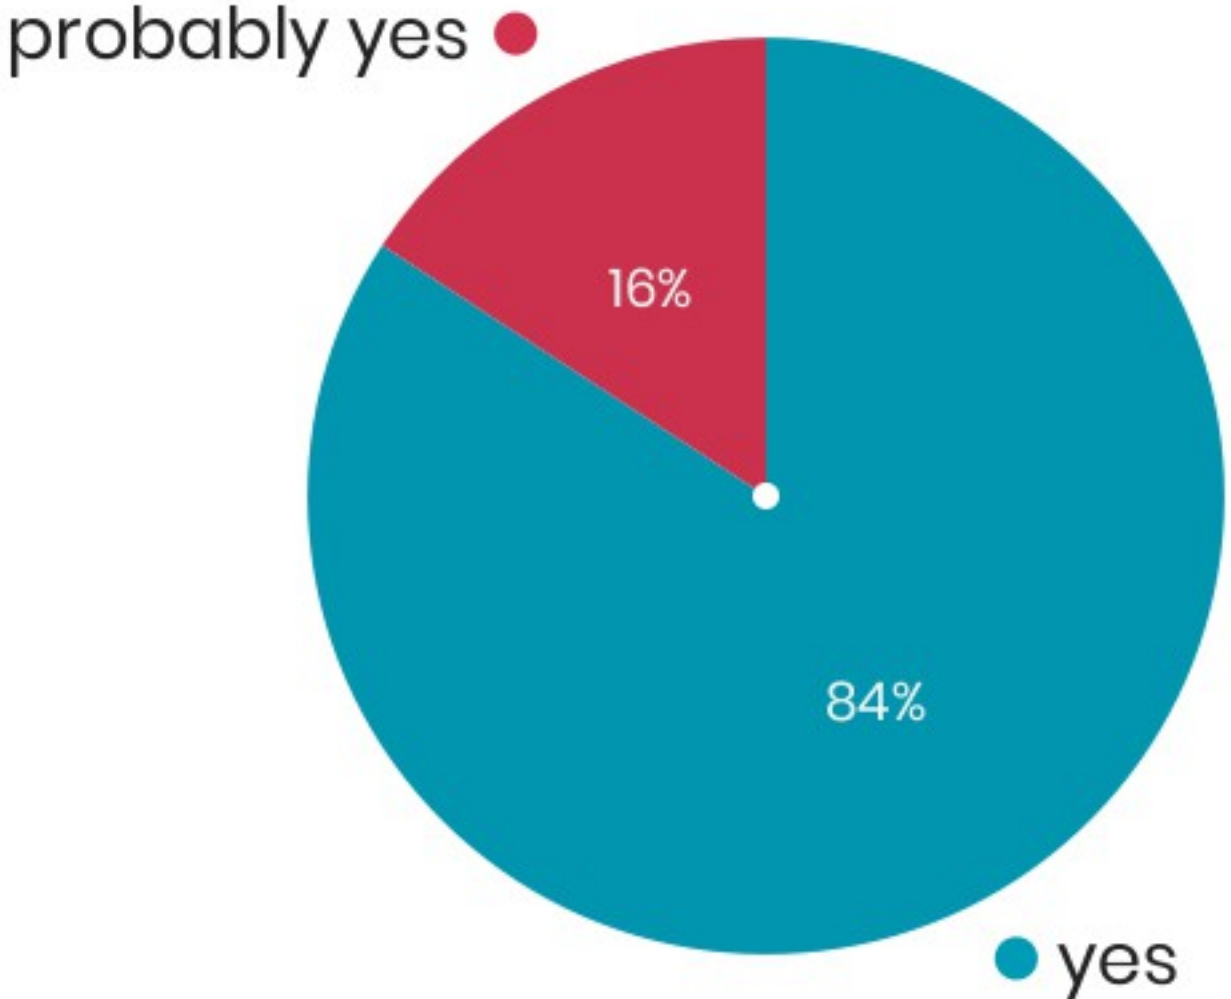

# 5. How was the program?

# 6. Will you attend another teleconference session next time?

# 7. Shall we continue to have a session on Rural Healthcare in following APAN meetings?

## 8. What type of presentations (topics) will be helpful to improve Rural Healthcare session?

technical and manpower challenges in rural parts of nepal

Health care police.

Audio disturbance from one centre

ok

Innovations in technology that can be applied in rural areas

that would be very simple one but that really displays its involvement in the health care of the Rural people

Techniques and tools related to video conferencing web conferencing: That might be network monitoring. audio/video equipment setups

1) Prevention and first aid of burn 2) basic trauma management 3) basic management of hand injuries 4) Wound management 5) basic burn mgmt

Success stories in rural healthcare. Feasible and affordable technologies helpful for enhancing rural medicine through telemedicine.

## 8. What type of presentations (topics) will be helpful to improve Rural Healthcare session?

Case studies from around the world

With the healthcare session, I don't know much since I'm an Engineer.

## 9. If you found any problems in teleconference, please write any comments you may have.

I used adobe connect with my phone and i wasnt able to chat with other members.

No problems

Improve sound quality's

Sound quality was a little bit of bad.

maybe some center the sound quality a bit poor but always can be improved. maybe the network connectivity

All the sessions are clear and went well.

Topic should be included from Very remote part of country

The balance of audio for every sites.

Audio noise observed from two remote sites sometimes and echo from one presenter.

## 9. If you found any problems in teleconference, please write any comments you may have.

No

Other institutions are experiencing audio difficulties. the most common is when they do not put their mic closer to the speaker phone

Participation was sparse

Voice clarity in some stations was not clear. Otherwise the program went smoothly.

The audio feed from the venue is quite problematic at the minor level. Other than that, nothing that I noticed

# 10. Which is your station?
