

APAN46 - Latin Endoscopy session (The 16th Latin American Endoscopy Teleconference)

August 8, 2018

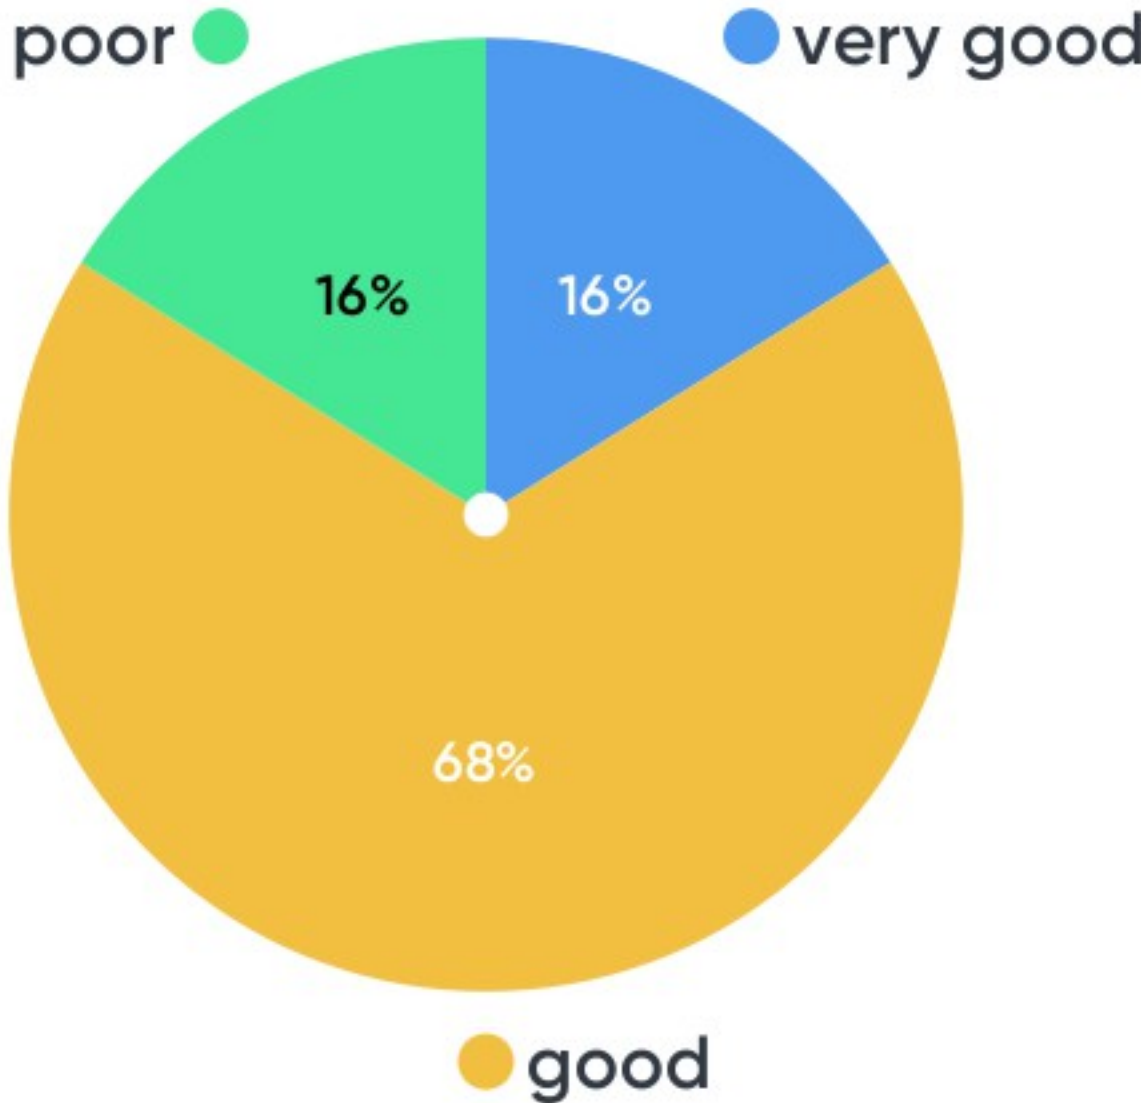

How was the image sharpness?

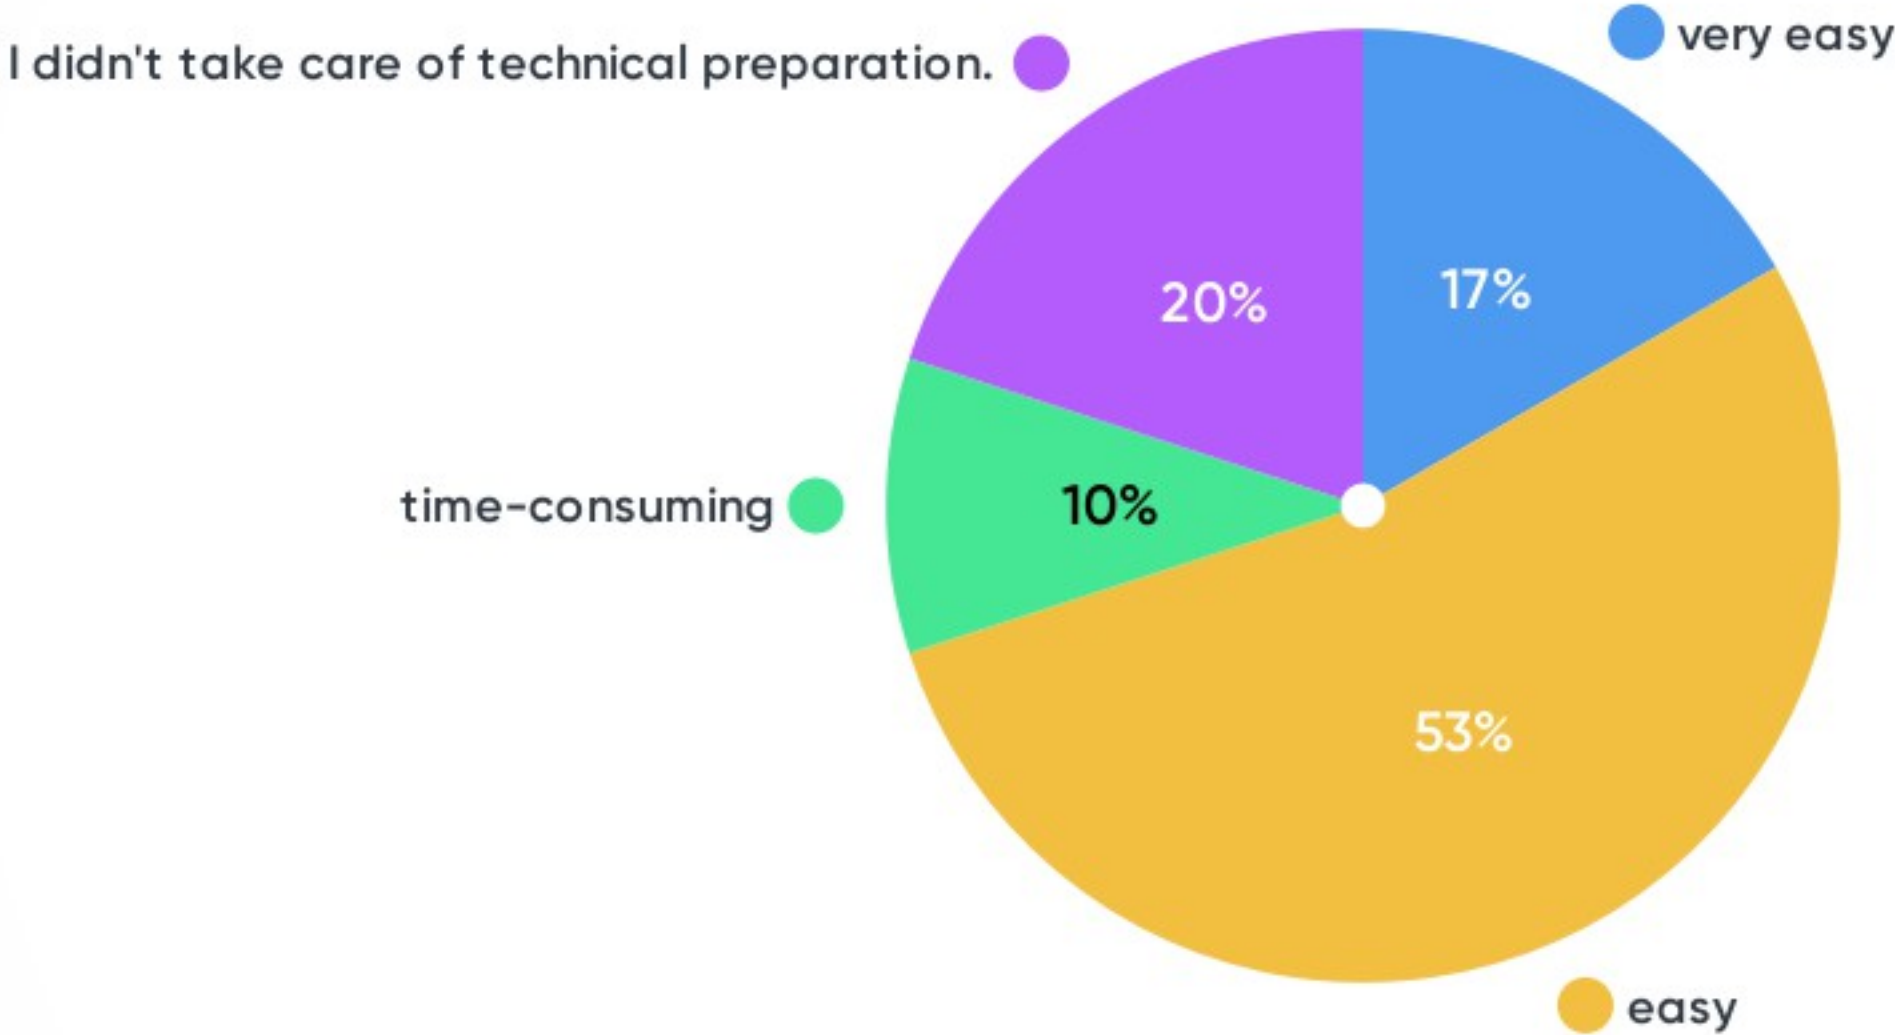

How was the image movement?

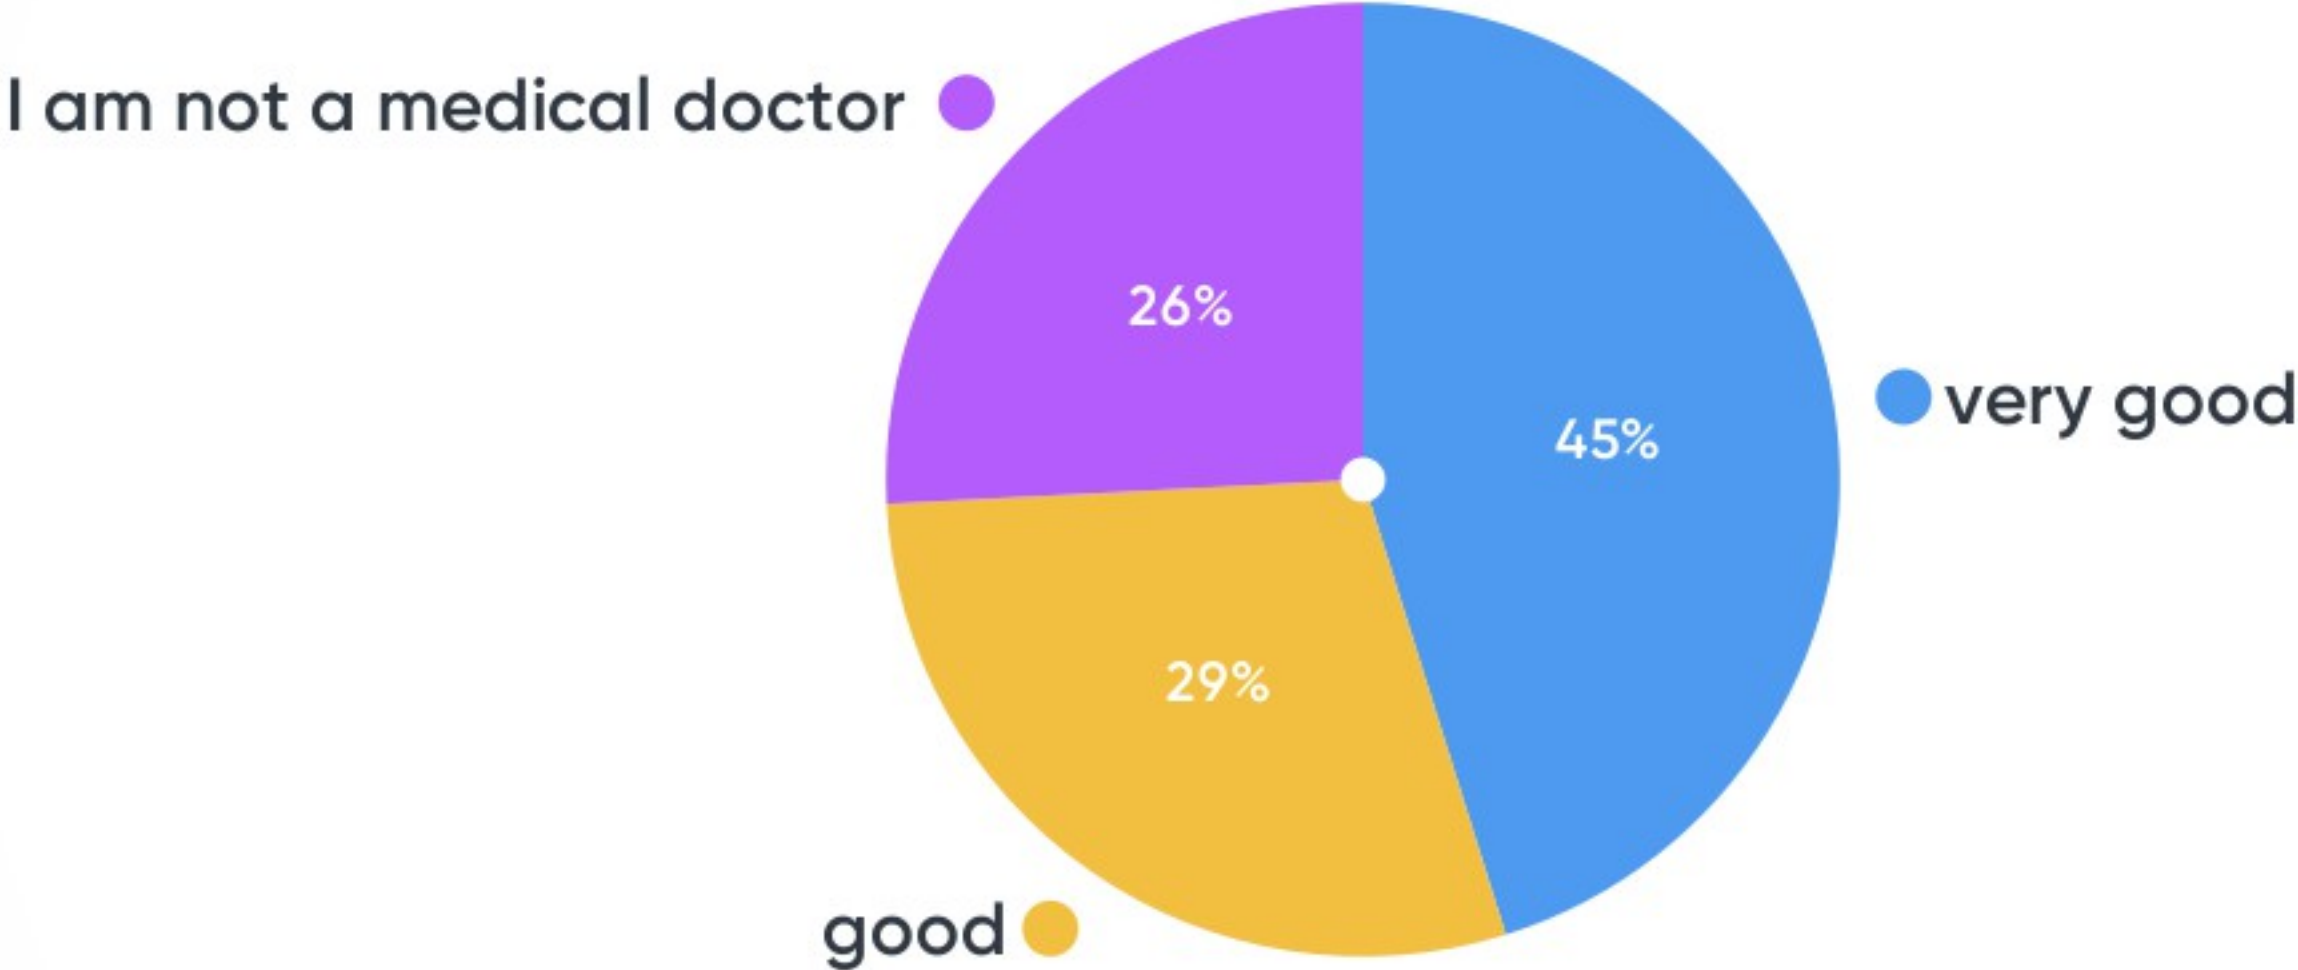

How was the quality of sound?

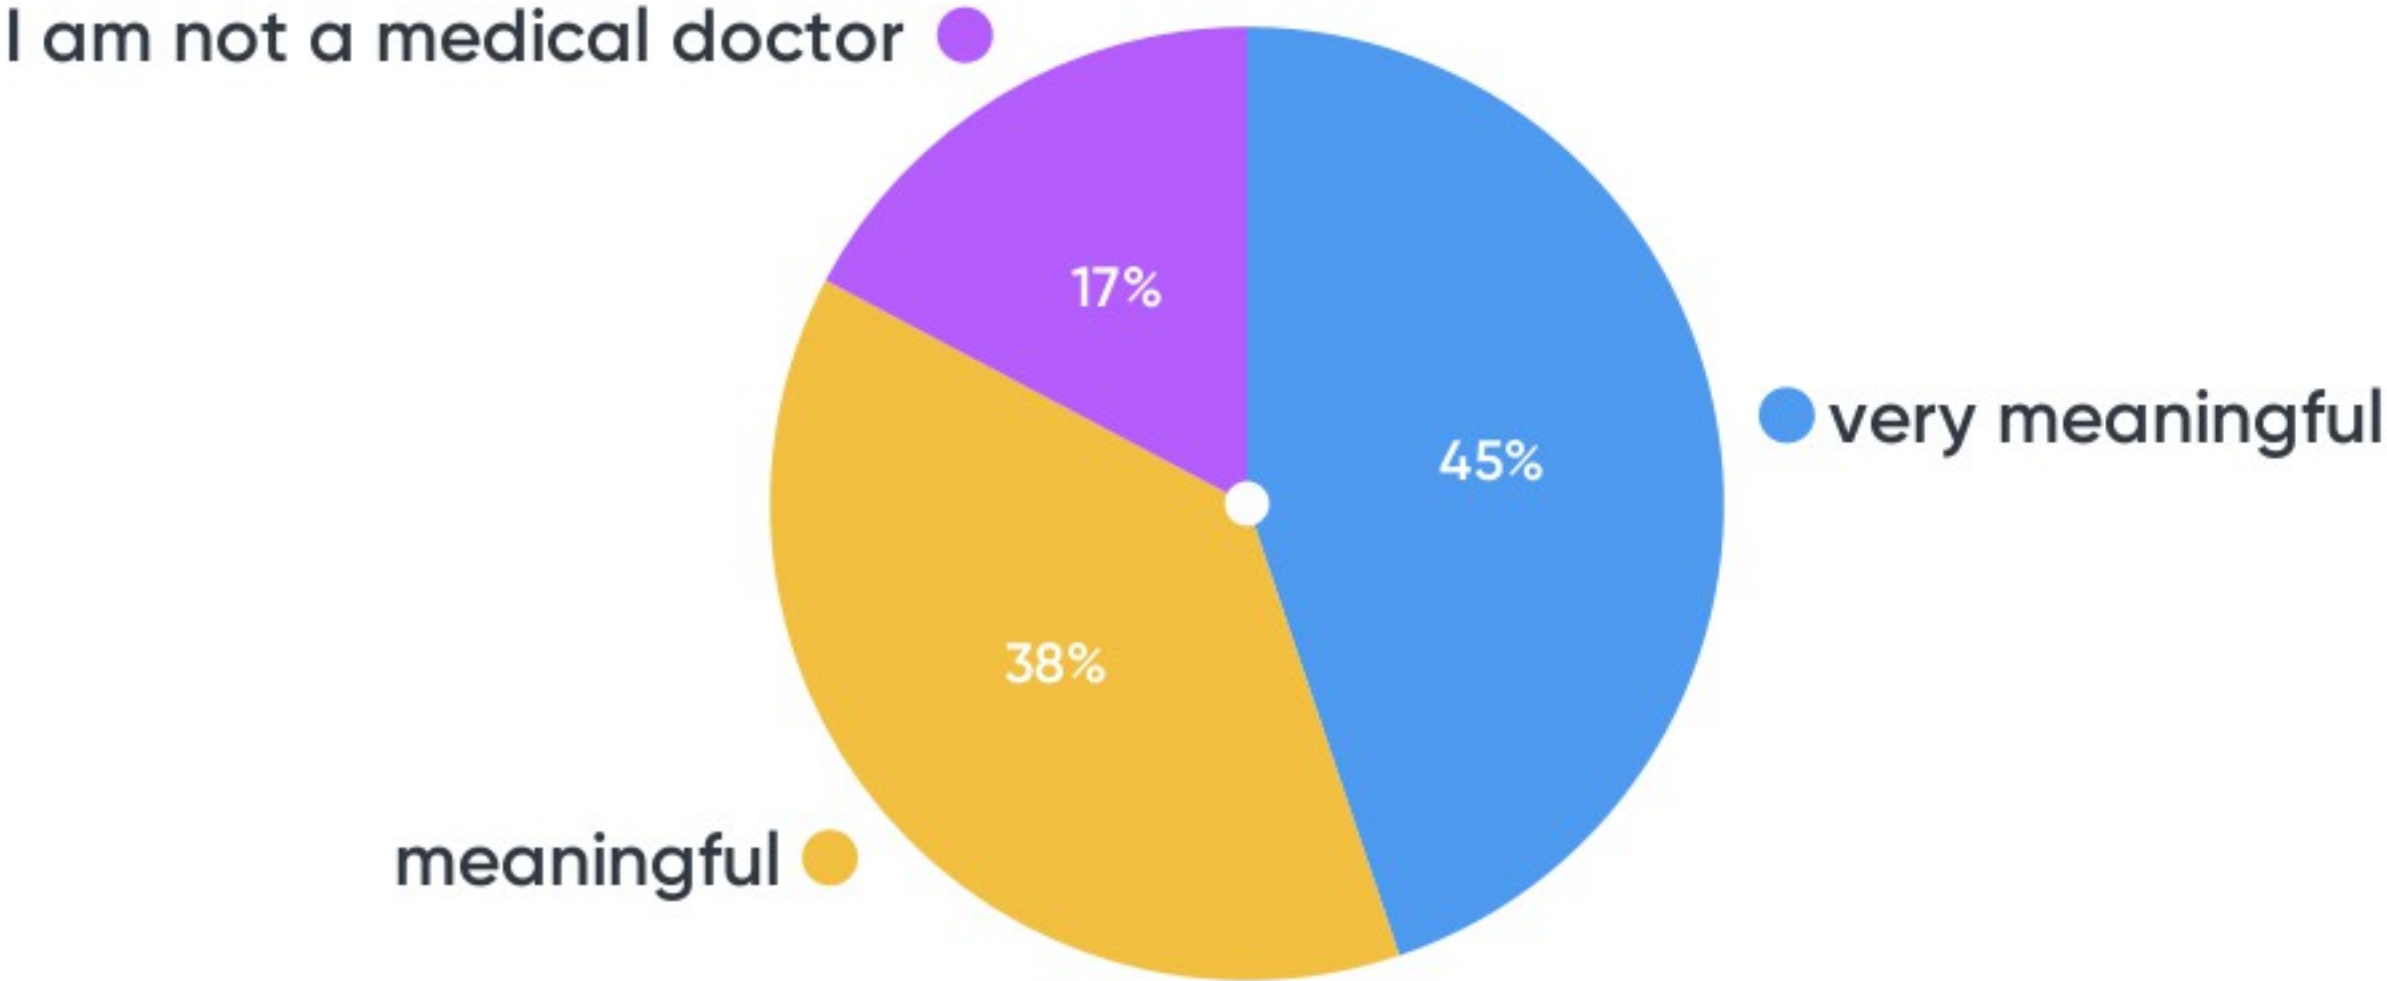

How was the technical preparations?

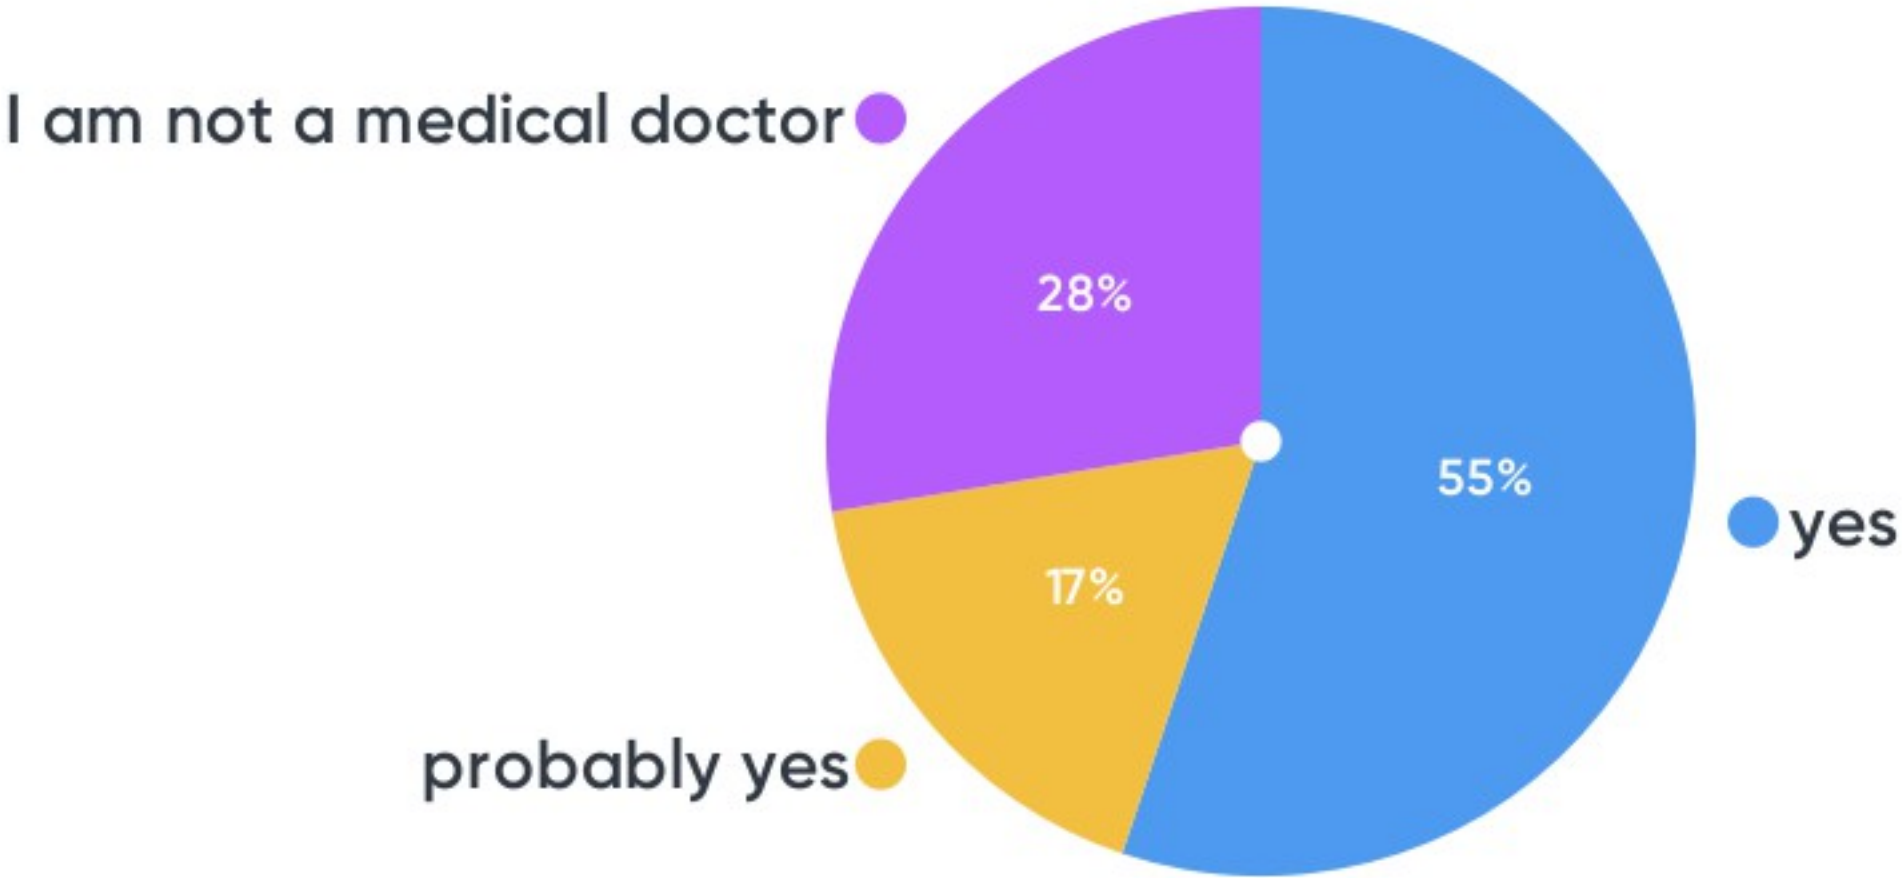

How was the program?

Was this conference program meaningful?

Will you attend another teleconference session next time?

Feel free to write any comments you may have.

We should guide the participant to manage lightning system at their venue so that their picture is clear to all.

Some times there was a problem with audio from few cntrs. Topic selected was good but they should have discussed about latest tech available

Nice program

not at all

Good sessions

We loose the presentation slides images several times

I have problems with my slides.
Franco Orellana

Thanks. I know that someone said the sound was not good but for me was great. Everything was great. Thanks a lot.

Minor issues with audio. Doctor notice that in some slides, bibliography food note get banned by name of the station (Vidyo). Maybe slides could leave enough margin at button to avoid this.

Feel free to write any comments you may have.

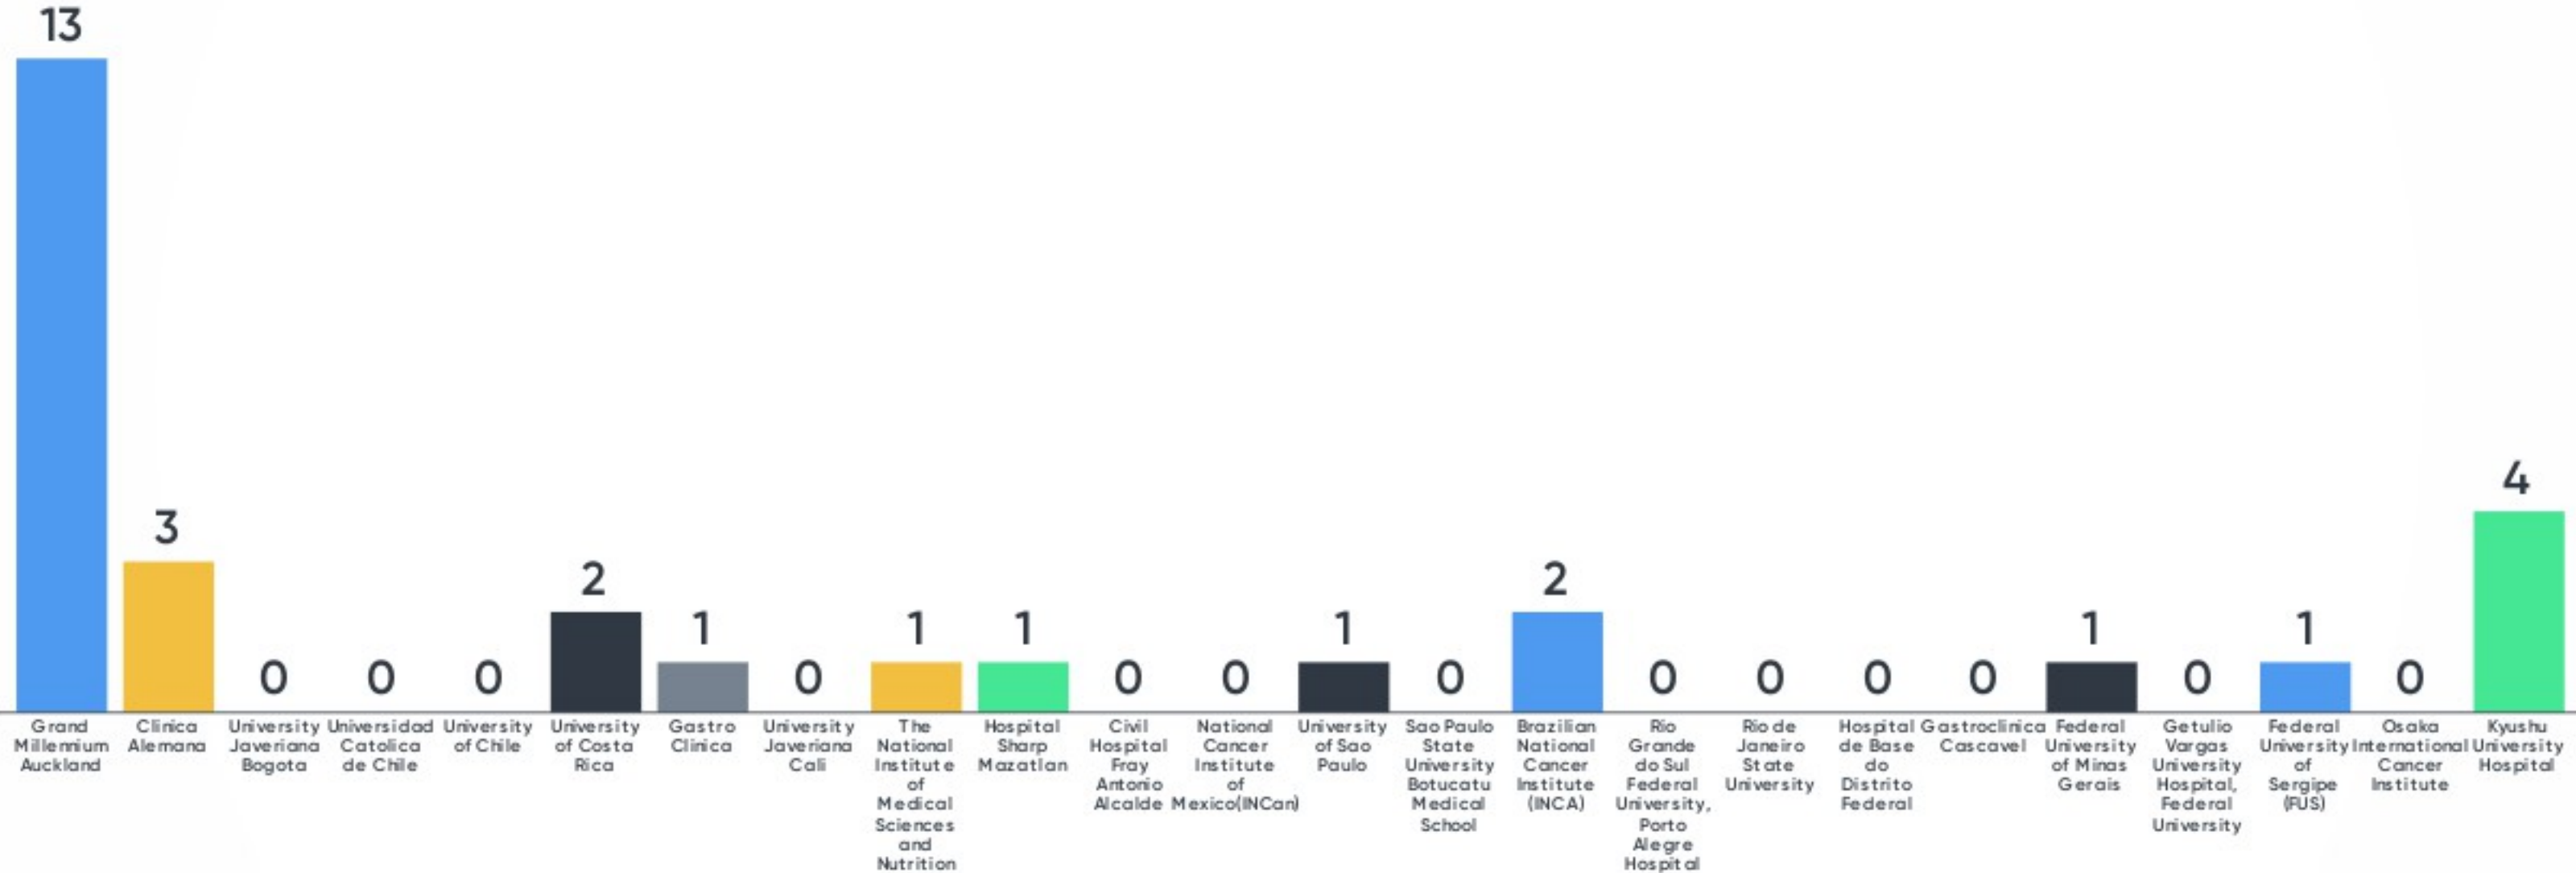

That was an amazing experience! We intend to attend subsequent conferences.

Ecuador want to participate in your meeting

Sometimes it was hard to see the references at the bottom of the slides.

Which is your station?

Which is your occupation?
