

# Questionnaires about APAN44 - Hepato-Biliary Pancreas (HPB) session

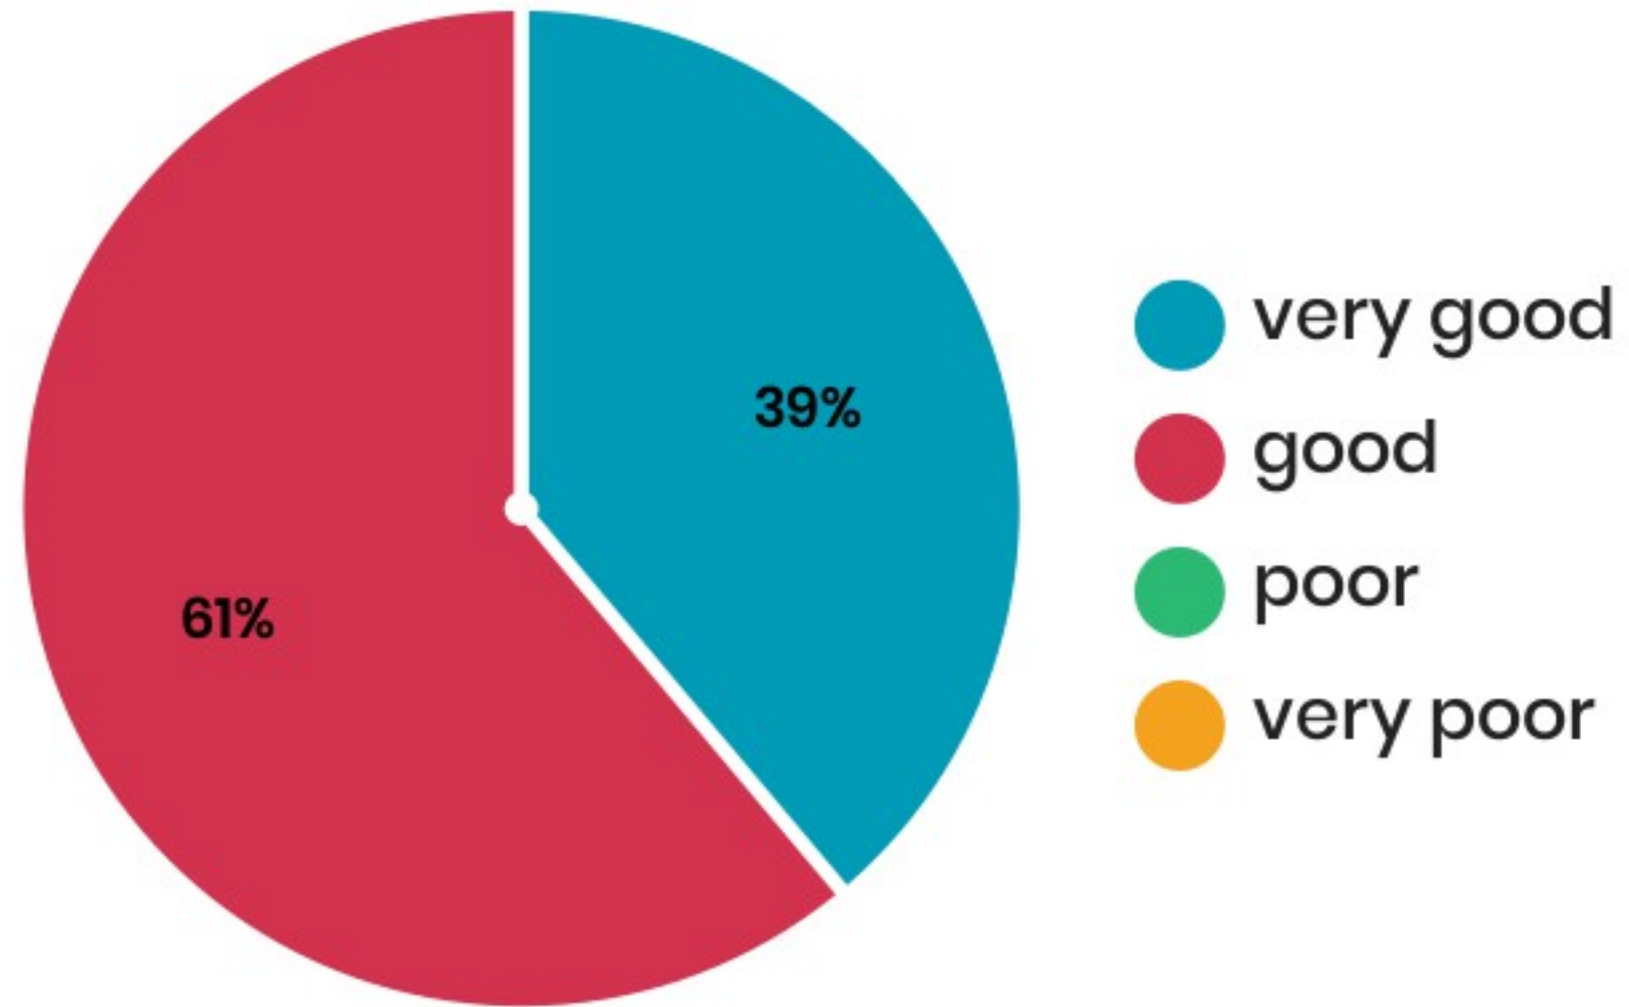

# How was the image sharpness?

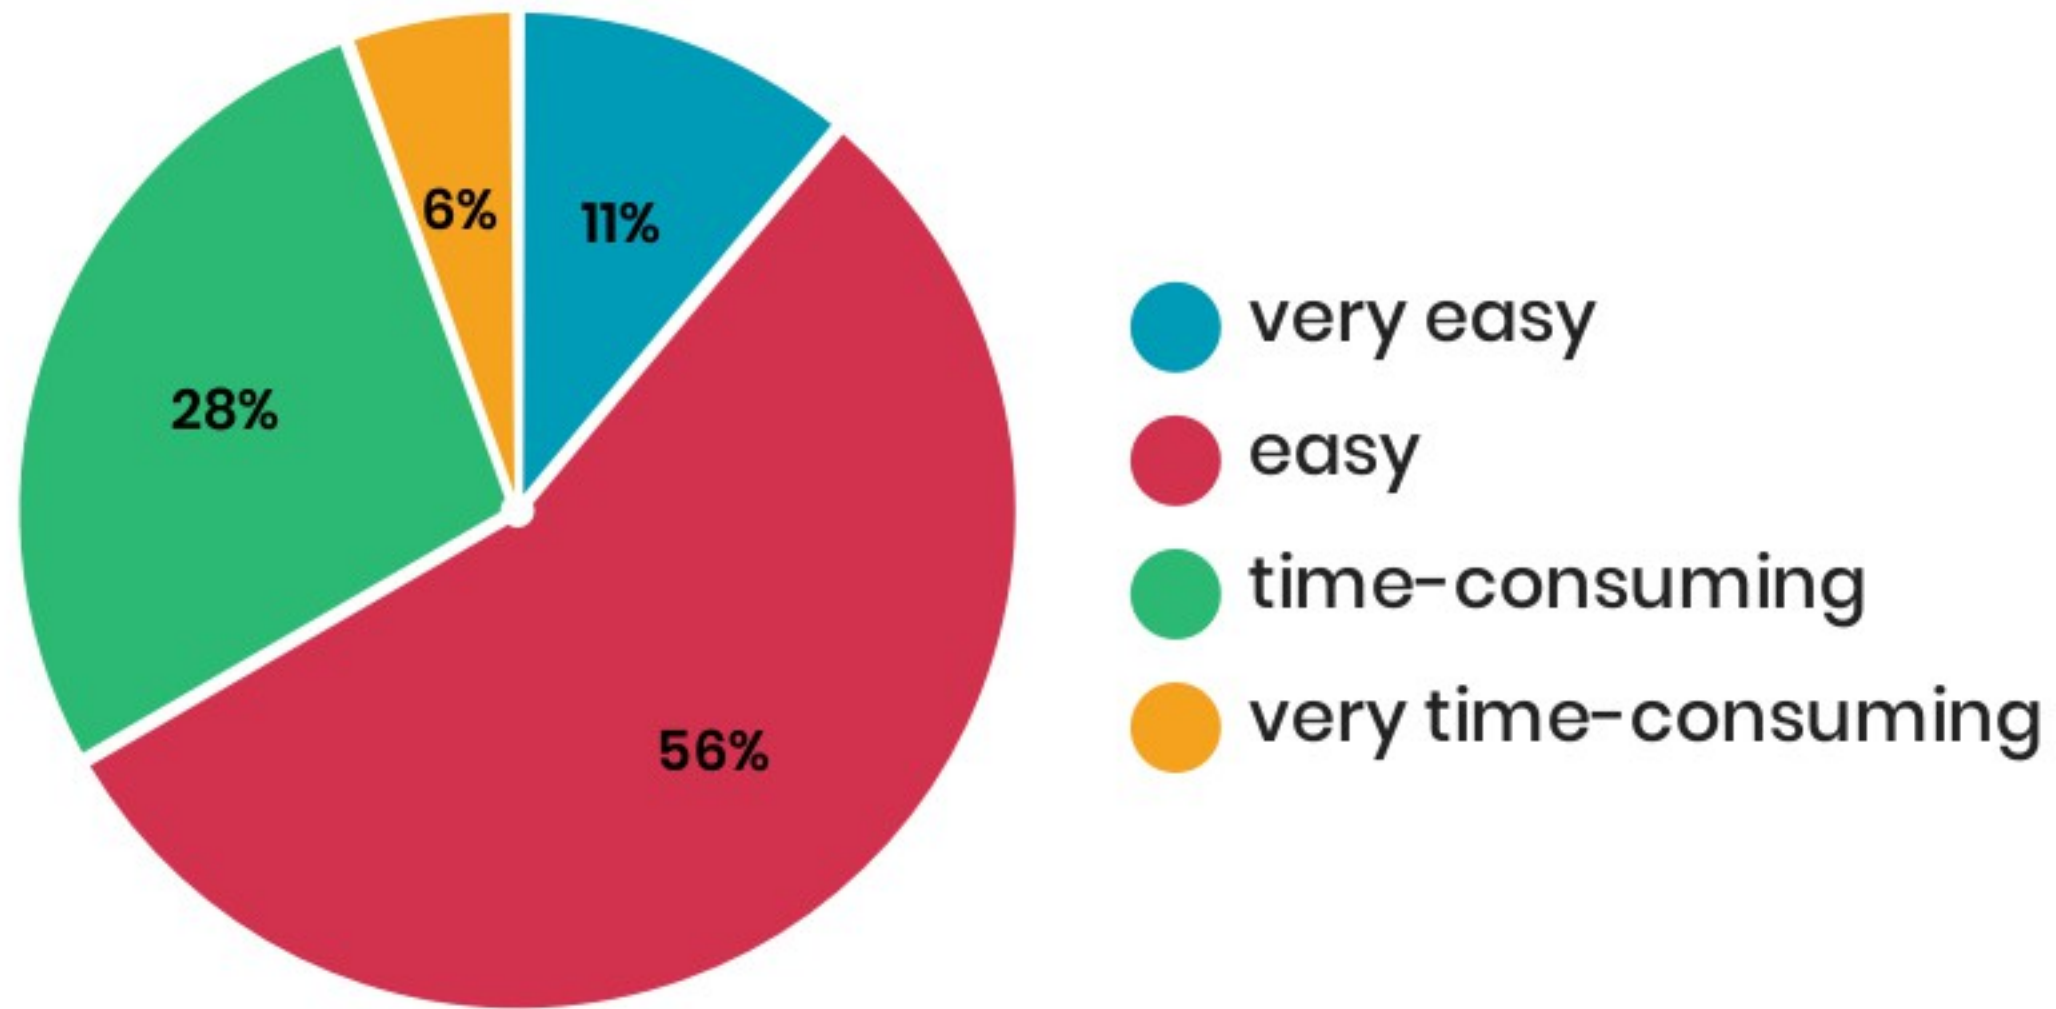

# How was the image movement?

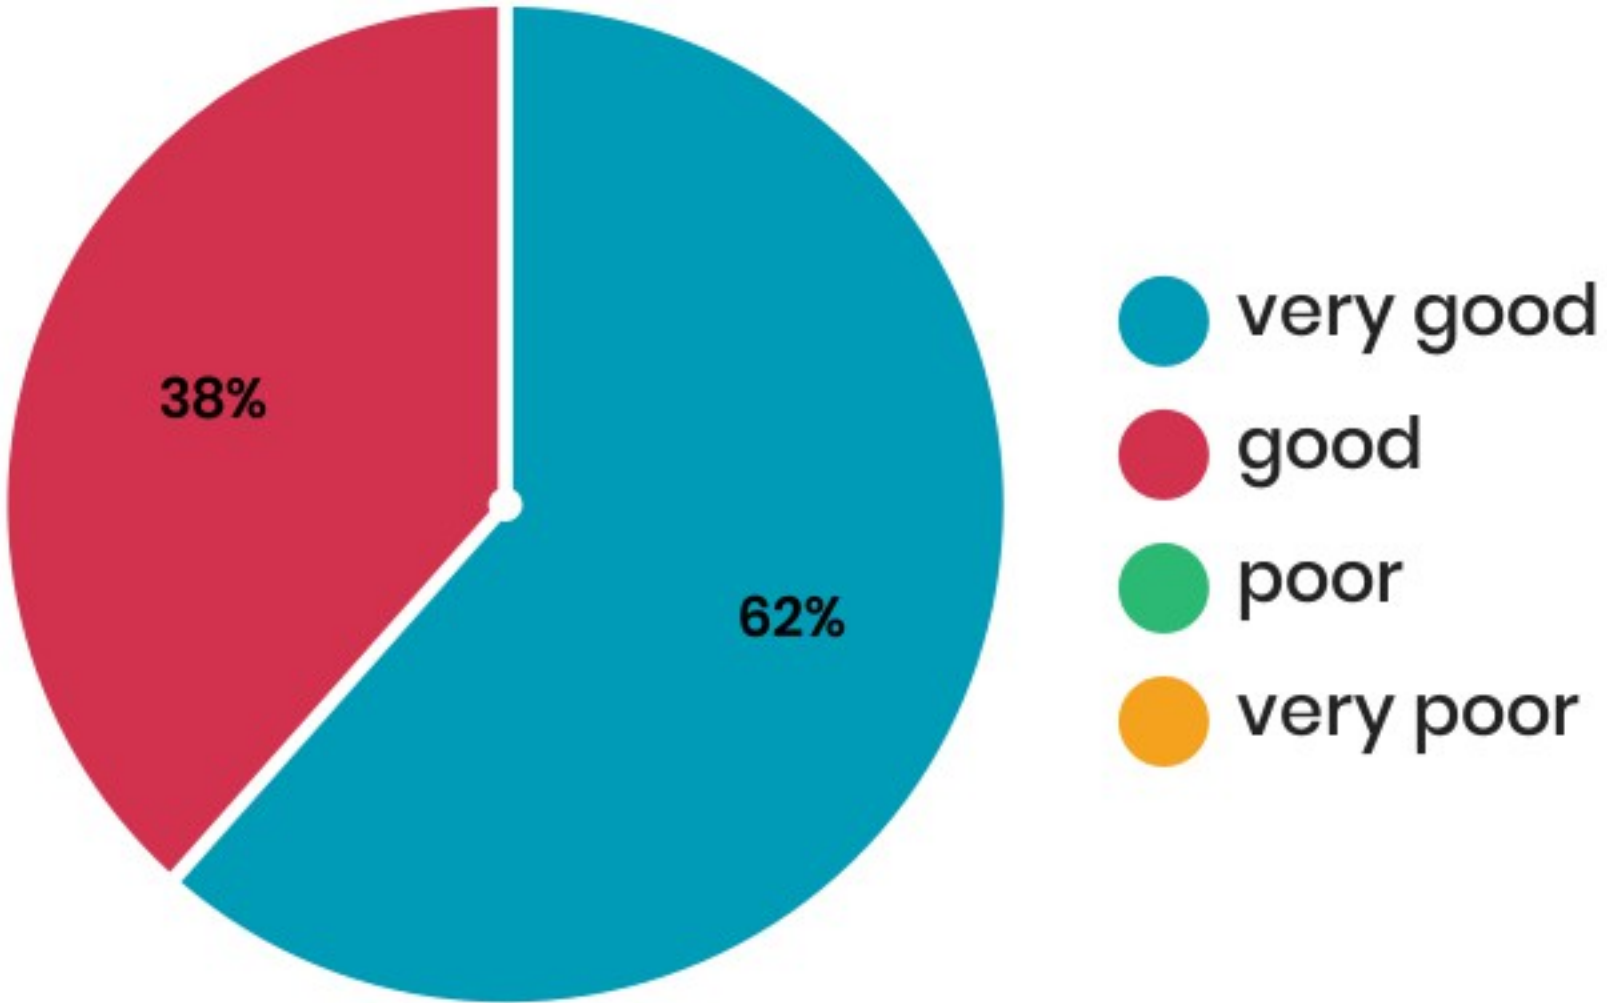

# How was the quality of sound?

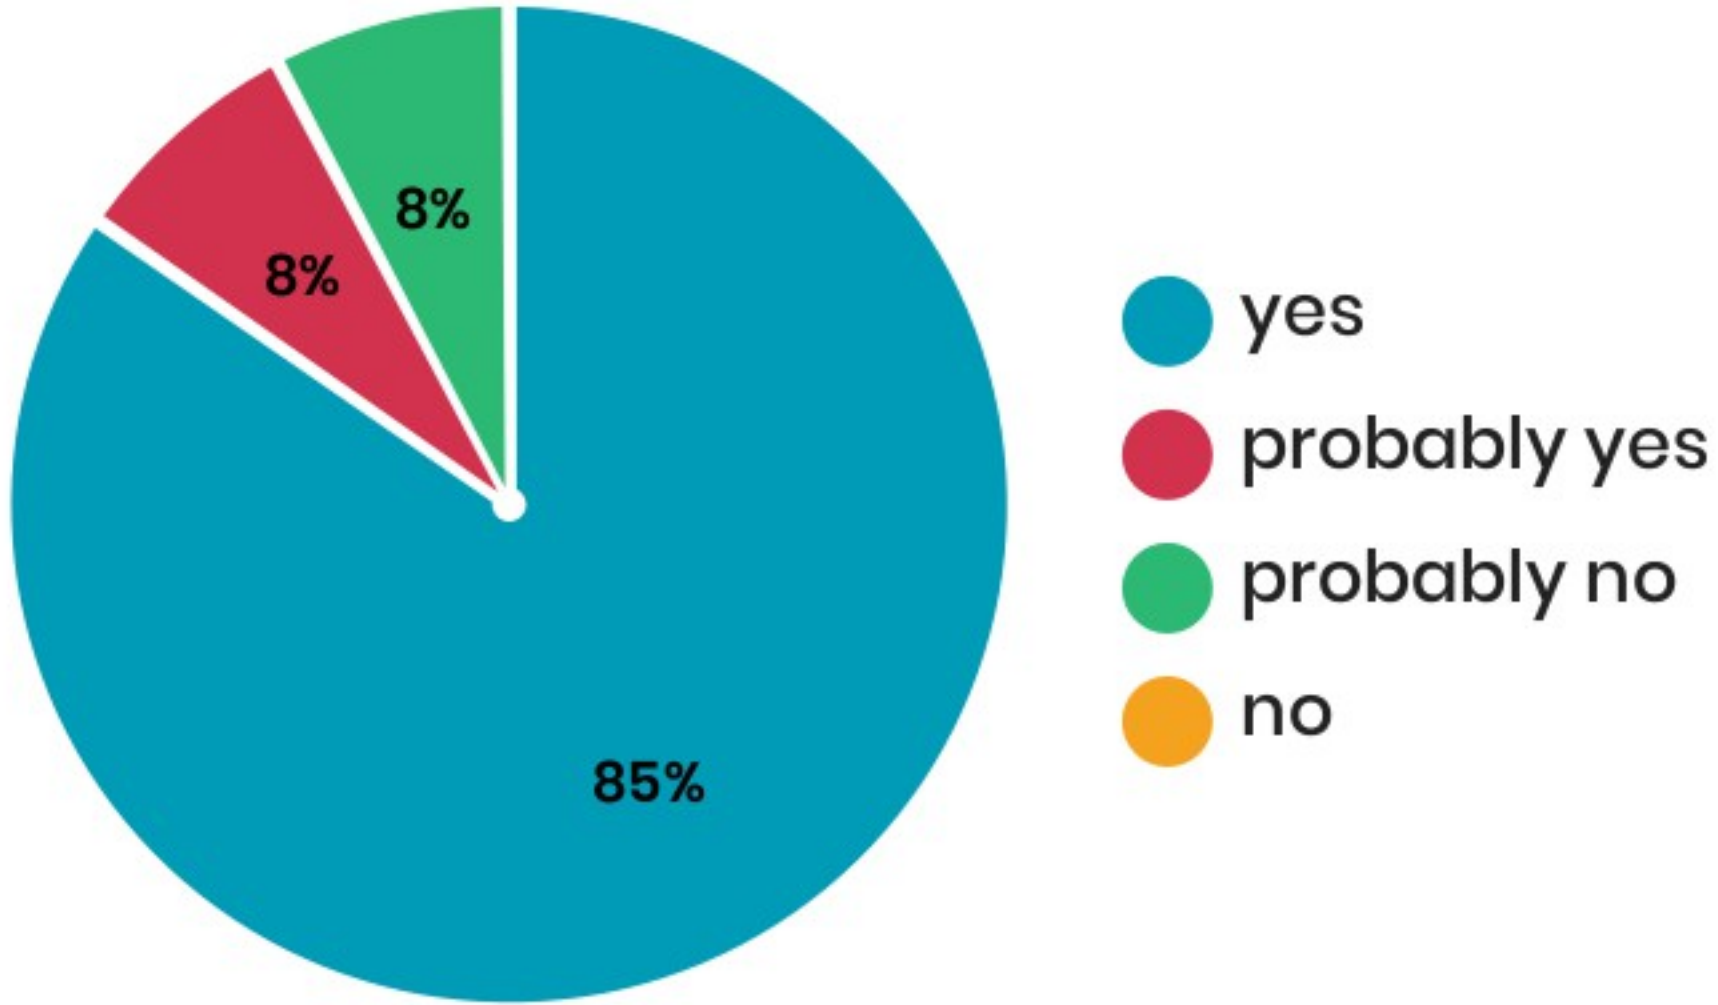

# How was the preparations?

# How was the program?

# Will you attend another teleconference session next time?

# If you found any problems in teleconference, please write any comments you may have.

During the connection testing we encountered network problem from Kyushu University where the video server is located.

this morning we have connection problem in temdec server,

Good session

TEMDEC team have resolved the network on time.

Suggest to limit presentations to 10mins per presenter. So if there is 60mins Of presentation there should only be 5 speakers maximum.

Please help to provide the Agenda/Program of topics earlier. Thank you.

the internet links is down at entire kyushu university. however it was restored 10 minuter after 9. so far overall the event is smooth

Thank you for giving me the opportunity to participate in this tele-conference. If Video movement becomes more smooth, it will be better.

every thing was good but some time some sites did not mute there mic so its little bit disturbed otherwise its good

# Which is your station?
