Health technologies and innovations

If you found any problems in teleconference, please write any comments you may have.

A few

Some sites foget to turn off micropjone.

NA

Electric power issues.

Images from the venue was a bit shaggy due to the INOGENI converter. One VidyoRoom is necessary in one of the key stations at least.

at 4.30 p.m suddenly, the power supply trip and network connection is lost.. some system are completely turn off.. using wifi as contingency

short disturbance before Dr. Chen's presentation

No comments

Some interruption due to power cut, couldn't access the programme detail through the conference web address.

Managing my ppt slides from my end (remotely)

Which is your station?
