(7) If you found any problems in teleconference, please write any comments you may have.

- Interrupted transmission but could follow presentation.
- We just had some problems with the resolution of the unit used in our site. The problem did not occur during the test so we are very sorry.
- Sound from some stations were not clear (Maybe the problem occurred just at our site? not so sure) and a little problem with slides from The Philippines, overall it was great, maybe more participation and discussion needed :-) Thank you.
- The sound quality from Hong Kong & Japan was good, but not from Thailand & Indonesia. The image transmission was poor from the Philippines.
