If you found any problems in teleconference, please write any comments you may have.

8 responses

Patan Academy of Health Science need to manage Network better.

Little audio and video disturbance from Patan Academy of Health Science

sounds from a some sites are very low

testing is importance

some remote sites forgot to mute their microphone

the sound from another country unclear

There were pictures of patient's face in the presentation slides which should have been masked for privacy. Also, some institutions need to understand more of the importance of testing.

Definitely no

If you suggest any particular topic for the next dental teleconference session, please let me know

6 responses

NA

-

autoimmune disease

I want to join any topic about dental from now

not at all

Still oral surgery

Conclusion

- ▶ Dental Telemedicine session of APAN 46 ran well as planned and programmed.
- ▶ Most stations rate this meeting as a GOOD session
- ▶ Most stations think this program could enhance INNOVATION VALUE in their institution
- ▶ Most stations would recommend Dental Telemedicine to a friend or colleague
- ▶ Most stations would like to join the future sessions
- ▶ There are still sufficient topics to be explored in the next meetings.

Thank You
