Title	Endoscopy-1		
Date & Time (Indonesia time)	16:00-17:30, January 22 (Wed), 2014		
Topic	Endoscopy Case Teleconference		
Style	Tele-conference		
System	Vidyo		
Organizer	Rungsun Rerknimitr		
Brief description	Because of the unique quality of live imagery and various endoscopic skills that can be demonstrated in a rather simple manner and short duration of time, endoscopy is always a favourite session during APAN teleconference. Projecting a live teleconference with good audio visual quality, minimal time lag together with the ability to deliver high quality video clip transmission are both interesting and challenging to the network engineers. With the advent of newer software such as the Vidyo system which can utilize the commercial network and which is simple to install even on personal computer and mobile devices, more and more remote centers can be connected. Live discussion usually starts from case with an endoscopic video clip and followed by comments from assigned discussants. Other centers are also welcome to comment following that
