

**A/ Prof. Rajvinder Singh MBBS MRCP MPhil FRACP AM FRCP** is a Clinical Associate Professor at the University of Adelaide, South Australia and a Senior Consultant Gastroenterologist at the Lyell McEwin Hospital, South Australia, Australia. Upon completion of his GI training, he received the Lancet International Fellowship which enabled him to undertake a higher research degree on Narrow Band Imaging in Barrett's Oesophagus at the University of Nottingham, UK. He has a keen interest in Endoscopic research focusing mainly on Advanced Endoscopic Imaging Techniques and Endoscopic Treatment of premalignant and malignant lesions in the gastrointestinal tract. He has published more than 100 papers/abstracts and is frequently invited locally and overseas to lecture on this topic. He has been successful in obtaining various national and international grants to further investigate the utility of novel endoscopic imaging techniques in the detection of dysplasia and early cancer.

He is presently a Fellow of the Royal Australasian College of Physicians (Australia), a Fellow of the Royal College of Physicians (Glasgow, Scotland), and a member of the Royal College of Physicians (London, United Kingdom). He is the Contributing Associate Editor in Chief of the World Journal of Gastroenterology, an Editorial Board member of Endoscopy, an Editorial Board member of the World Journal of Gastrointestinal Endoscopy and regularly reviews manuscripts for Gastrointestinal Endoscopy and Endoscopy. He also sits on the council of the Australian Gastroenterologic Endoscopic Association.
