

Dr. Antonio M. Lacy, MD, PhD, is chief of the Gastrointestinal Surgery Department at the Hospital Clinic in Barcelona, Professor of the Surgery Department at the School of Medicine of the University of Barcelona, Director of the Surgical Institute of the Hospital Quiron (Barcelona) and President of the Barcelona International Medical Academy (BIMA). He completed his specialty as General Surgeon in 1987, and focused on the surgical treatment of diseases of the gastrointestinal tract (upper GI, colon&rectum, morbid obesity..), with special interest on laparoscopic and minimally invasive surgical techniques (eg NOTES, Reduced Port Surgery –RPS-). Dr Lacy has pioneered in some NOTES procedures such as transgastric cholecistectomy, transoral anti-gastroesophagic reflux, transvaginal sygmoidectomy, transvaginal sleeve gastrectomy, and cholecistectomy by RPS. At present, main focus is on transanal, transrectal or transcolonic colorectal surgery. Moreover, he is active member of the international working groups of new techniques for bariatric surgery and development of surgery for Type 2 diabetes and Metabolic Syndrome, with main focus on treatment of Metabolic Syndrome and of patients who gain weight after bariatric surgery. Dr. Lacy has published over 180 manuscripts in specialized journals, as well as more than 20 book chapters. Dr. Lacy is Past president and member of the Executive Board of the European Association for Endoscopic Surgery and other Interventional Techniques (EAES), where he has held different appointments, Active Member of the Society of American Gastrointestinal and Endoscopic Surgeons, Member of the Executive Board of the International Federation of Societies of Endoscopic Surgeons (IFSES), Founding Member of the Multidisciplinary International Rectal Cancer Society and has been unanimously accepted as Honorary Fellow by the American Association of Colorectal Surgeons (ASCRS).
