

LERNET

Lao Education and Research NETwork

Current situation about...

- ❖ LERNET
- ❖ campus identity
- ❖ Eduroam
- ❖ Federated identity

LERNET

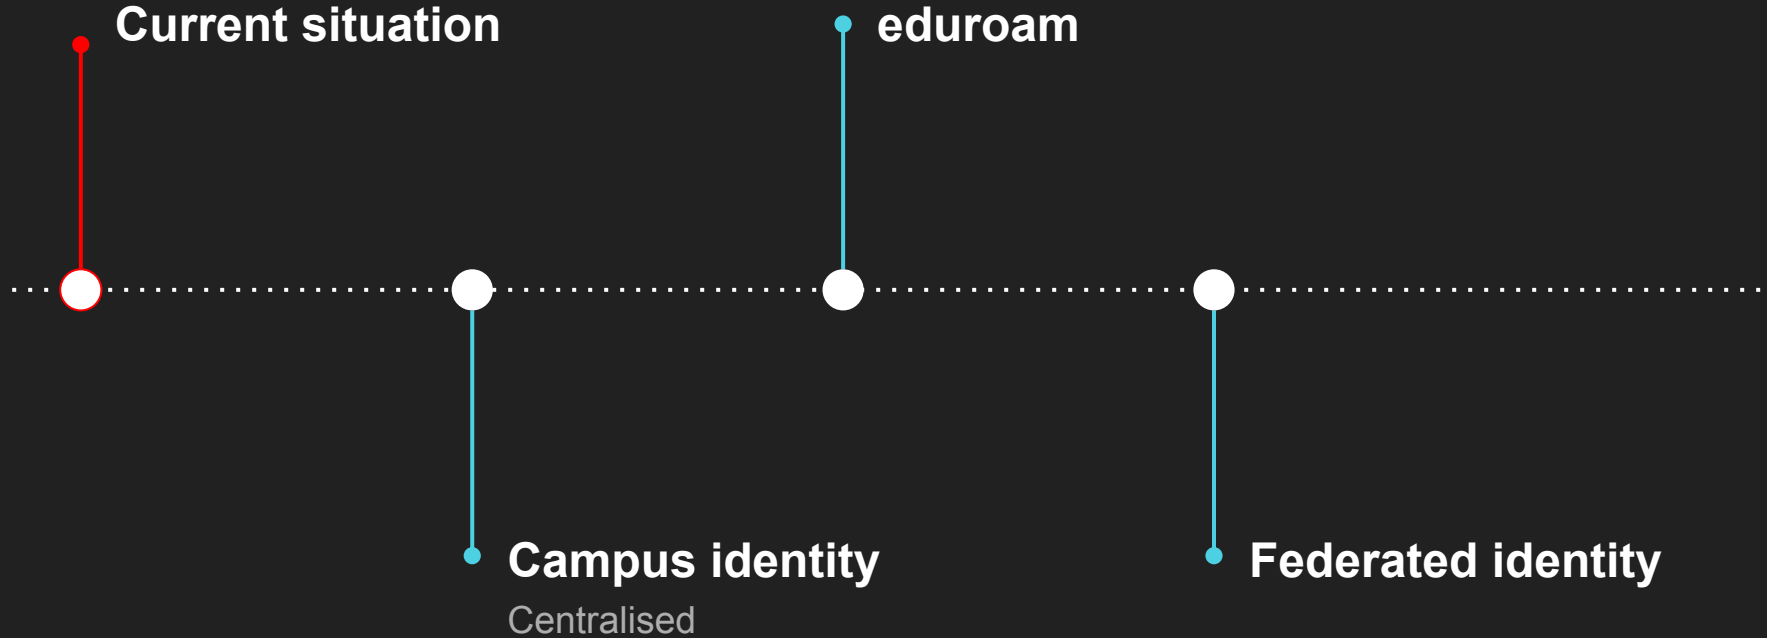

Is managed by IT center, National University of Lao.

- Just have physical connection with TEIN by UniNET - or ThaiREN
- No service running (Only physical connection)
- No official authority (impacts on plan, policy, human resource and budget)

National University of Laos

- Implement basic authentication
-based on device (individual
server and AP router)
- Not centralised control
- A few services available
(internet access and
cloud-based email)
- campus network problems
(service providers, physical
connection and configuration)

Current position and future plan

End

Thank you !
